B.C. Alaska Road Board Comes Back to Victoria

Joint Meeting With
United States Board
Here On Monday

No Alberta Route

Canadian commissioners who have been studying the proposed British Columbia-Alaska Highway left Vancouver this morning for Victoria, where they will meet members of the United States commission on Monday at the Empress Hotel. They arrived here on the boat at 2:40 and will spend four or five days here.

Hon. Charles Stewart, chairman of the Canadian section, announced today that he and his fellow commissioners had given careful consideration to the evidence submitted by the Vancouver Board of Trade, Vancouver Tourist Bureau and other delegates at Thursday's hearing.

"It is impossible to make an announcement of any kind until we have met the American commissioners," he said.

Mr. Stewart added they were much impressed with the "careful thought" that had gone to the preparation of the evidence submitted.

Commissioner J. W. Spencer of Victoria plans to show the visiting commissioners some of the beauty spots of this city and the vicinity tomorrow and Sunday.

The commission has received no instructions to include consideration of an alternative route through northern Alberta to Alaska, Mr. Stewart said.

He made the statement in reply to a question by Howard Mitchell, president of the Vancouver Board of Trade, which tendered a brief on the project to the commission.

"I have only heard of this matter by rumor," said Mr. Stewart. "I have asked the Dominion Government for particulars, but there has been no enlargement of the inquiry."

Mayor C. E. Scanlon of Kamloops, B.C., told the commissioners in Vancouver of the value of a route which would traverse the rich, easily accessible lands of the central interior.

SHORTEST ROUTE

Mayor Scanlon said the interior route was the shortest to the north, most economical of completion, offered freedom from traffic by a through system of alternative highways on both sides of the international boundary, and was close to rail and air communication points.

In addition to offering tourist attractions in fishing and hunting, the mayor contended light precipitation and easy winters would make for easy maintenance the year round.

Expressing interest in the system of highways which would permit rerouting of traffic and transport if a break occurred in the main highway, Mr. Stewart asked:

"How many of those suggested routes are already completed?"

"There is only one to be actually completed," replied Mayor Scanlon. "It is from Mount Oie to Mile 92 on the Cariboo Highway. Sixty-five miles have been finished, and 35 miles remain to be built."

Capt. T. P. Kelly, president of the Monkmann Pass Highway Association, Vancouver branch, urged routing the road from Prince George to Finlay Forks, one of the two discussed routes through northern British Columbia.

THE WEATHER

VICTORIA, 5 a.m. today—Pressure is high over Vancouver Island and relatively low over southern California. The weather has been fair and moderately warm throughout British Columbia, with the exception of the north coast, where light showers have occurred. It has been cooler and showery in the prairie provinces.

Victoria—Barometer, 30.31; temperature, max. 61, min. 52; calm; clear.

Brilliant Meteor Seen From Malahat

Efforts Made to Find Body That Fell
On British Columbia Coast Last Night

A meteor which fell last night somewhere in the Gulf of Georgia or on the mainland coast was seen by some Victorians, but apparently they did not have the general view of hundreds in Vancouver, who believe it fell on the North Shore there.

Charles Dale, 1170 Hilda Street, saw the flaming ball from the Malahat, where he was driving with his wife.

They were near Stacey's Road about 7:30 when the meteor dropped.

"It was tremendous," Mr. Dale said. "Like nothing I've ever seen before in my life."

He said he estimated it dropped in Cowichan Bay, but this was only a guess because it disappeared first behind the hills.

The ball, of brilliant light, appeared bigger than a football in the sky and the tail, a dark red glow, seemed 60 or 70 feet long, he said.

Mr. Dale estimated the speed of the meteor "about one-third the rate of a shooting star."

SEEN AT BRENTWOOD

Albert Jones, while fishing at Brentwood last night, reports seeing what was probably a fragment of the meteor.

"It fell three or four hundred yards away from us, near Seranus Island," Mr. Jones reports.

"There was not time to observe it closely. It was like a red electric light globe followed by a trail of light. We saw a launch near where it fell, although from the distance it is impossible to say if it hit the water close to the launch. It seemed to shoot from the sky into the water quicker than a flash of lightning and it happened so quickly that by the time I called it to the attention of Dick Freeman, who was fishing with me, there was nothing to see."

The phenomenon was not observed from the Dominion Astrophysical Observatory here and Dr. J. A. Pearce, acting director, said that from reports of casual observers it was difficult to place the locality where it fell.

"Unless one actually sees a meteor land it is always hard to estimate the actual distance it may be from one," he said.

"The meteor usually becomes light 100 or 150 miles above the earth's surface. When it drops in a vertical line people seeing it from different points will have widely different versions."

He recalled that the meteor which fell near Chatham, Ontario, recently, was reported by competent observers as having fallen in Lake Huron, Lake Erie and at Sudbury and other points.

"If we had had instruments trained on it from different stations we could have said exactly where it fell," Dr. Pearce said, "but I think the only thing now is to wait for more reports of eye-witnesses."

Dr. Pearce said iron meteorites usually consist of 95 per cent iron, 4 per cent nickel and 1 per cent cobalt. There is a market for them at the American Museum at Denver as specimens. The value runs from \$150 to \$200 an ounce.

SEEN BY HUNDREDS

Hundreds of excited Vancouverites stick to their story a meteor landed just north of the harbor last night, but a visiting California astronomer suggested it might have landed many miles away.

Those who saw the "ball of fire," which dropped from the sky just at dusk yesterday were unanimous in the belief it hit the earth either on Grouse Mountain or one of the other peaks which rise from the north shore of the harbor.

Dr. F. C. Leonard of the staff of the University of California at Los Angeles—in Vancouver to lecture on astronomy at the University of British Columbia's summer session—agreed their belief might be correct.

But referring to reports the Vancouver meteor had been seen in such widely separated points as Seattle, Victoria, and Williams Lake, B.C., 200 miles northeast of here, he said it might actually have landed "in the far north."

SEARCH MADE

So convinced were some residents that the meteor landed on the North Shore, however, that a party of four youths from a forestry training camp on Grouse Mountain were sent out last night to look for it. They walked more than five miles through the mountains, returning two hours

later to report no success in their search.

Mrs. Susan Williams, manager of Grouse Mountain Chalet, said she plans to ask that a larger party be sent out today to continue the search.

The meteor seen here was the third major one reported on the continent in the space of a month. One of the others was seen over Portland, Ore., several weeks ago, and more recently one fell in southwestern Ontario, where several fragments were found.

The meteor last night appeared so close to the city that many who saw the flaming mass drop earthward believed it might have been an airplane falling in flames. However, later information discounted this belief, and all Vancouver planes were reported safely in their hangars.

While the North Vancouver search was going on, a Dominion government wireless operator reported he saw an apparently smaller stone drop into a field of oats at Brighouse, B.C., settlement eight miles south of here near the mouth of the Fraser River.

The operator, who declined to give his name, and the stone was about the size of a baseball and was "travelling very slowly," when it struck. He said it had a tail about one foot long.

The operator, "because I did not want to damage the oats," did not investigate.

OBSERVERS IN VANCOUVER

Fred Auger was playing with friends on the Point Grey golf course when the meteor was observed.

"A ball of brilliant white light had suddenly appeared in the northern sky," he said. "It was descending rapidly to earth. In a second or more it was gone. In its path it left a thin rope of twisting white that looked like smoke."

"We did not see where it met the earth, as it disappeared behind a near horizon of tall trees, but we guessed it to have come down somewhere on the north shore."

"If we were right the meteor must have burst into flames at an altitude of about 20,000 feet, for it was several times higher than the North Shore mountains when we first saw it."

H. Miller said he was waiting at the Boundary Road bus depot. "It appeared to me like a huge tear out of the sky. It was a fiery globe trailed by blue flame. It appeared to come to earth in the foothills of the Lynn Creek district."

To P. H. Johnson it was "like a ball of fire the size of a football with a tail 8 to 10 feet long. It was in sight 15 or 20 seconds, but was moving at a high rate of speed."

W. C. Griffith described it as an immense white rocket with a tail of white flame four or five feet behind. He placed its size about that of a football.

R. H. Gemmell said he saw it as a huge ball of fire that traveled above the West Vancouver ferry landing and fell into the mountains east of Crown.

"It was a beautiful spectacle," he added, "and shot sparks and flame like a rocket."

Mrs. Hethey Wins Victoria Match At Rifle Meet

Local Ace Scores Possible to Lead Field in
B.C.R.A. Competition

In Brilliant Form

BLAIR RIFLE RANGE, North Vancouver (CP)—Mrs. Gwen Spencer Hethey of Victoria won the Victoria corporation match at the British Columbia Rifle Association prize meet here today with a perfect score of 50, and added three extra bulls-eyes "just in case" any later finishers tied her 10-shot score over the 200-yard range.

Mrs. Hethey, prevented by a technicality from shooting off for the Governor-General's prize in last year's Dominion Rifle meet after she had tied with two men for top place, picked off 10 straight bulls today. Then she fired three more into the black, "in case," she explained, "some one else ties me with a possible. It will save time in a shootoff."

Veteran riflemen marveled at Mrs. Hethey's coolness and deadly accuracy as she methodically sniped shot after shot into the bull.

Last year Mrs. Hethey won the Governor-General's qualifying stage and went on to tie with Capt. A. C. Lucas of Toronto and Capt. George Patrick of Ottawa with 167 out of a possible 175. As the four places in the Governor-General's are traditionally reserved for members of His Majesty's forces Mrs. Hethey was ineligible for the shootoff, won by Capt. Lucas. She was given fifth ranking.

Conditions were good, although a slight haze hung over the butts and marksmen found some difficulty with a mirage.

Six were tied 49s. They were C.P.O. J. A. Bettes, R.C.N., Victoria; Cadet N. Anderson, R.S.C., Victoria; Q.S.M. W. B. McKay, R.C.O.C., Victoria; G. L. Churchward, V.R.A., Vancouver; Corp. W. J. Penny, B.C. Regiment; Sgt. Paul Gibault, B.C. Regiment, Vancouver.

Cadet Anderson, 16-year-old member from the Rainbow Sea Cadets, turned in a great performance for a youngster and had nine straight bulls-eyes. The strain proved a little too much, however, on the last shot and he counted an inner.

C.S.M. Len Willoughby of Senforth Highlanders, Vancouver, also had an excellent chance for a possible as he posted eight five's in a row. But he picked inners on his last two shots for a 48.

Fair Attendance Up; Average \$1.27 a Head

SAN FRANCISCO—The Golden Gate Exposition today cited statistics for attendance revenue, showing average daily attendance had jumped from 32,000 to 53,000 between July 1 and July 18.

The fair grossed \$1,496,825 for the 18 days, for a daily average of \$83,156.

Total paid attendance to date, 5,405,683.

Average visitor to Treasure Island spent \$1.27.

Britain Urged To Buy Large Wheat Supplies

Financial Times of
London Says It Would
Ease World Situation

Canada Interested

LONDON (CP)—The Financial Times today called on the government to ease the world wheat situation by augmenting war reserves of the cereal and to strengthen its hand internationally by judiciously placed purchases.

The newspaper said in an editorial that if wheat prices do not recover to a more remunerative level, increasing financial stringency will result in producing countries with a resultant loss of markets for imported goods.

The editorial said Britain could take advantage of the urgent need to the wheat growing countries to unload supplies to break the economic stranglehold the totalitarian states are seeking to impose on central European and South American countries.

The newspaper, admitted, however, that certain problems arise. For instance, if the government should decide to buy from Roumania and Argentina it would be forced to consider the rival claims of Canada and Australia.

The Manchester Guardian urged the government to buy wheat while the price is at its lowest in years.

Incendiary Fire Loss Is \$23,300

Fire Chief Says 69
Suspicious Fires in
City Since April 1

The pyromaniac who is blamed for 69 incendiary or suspicious fires during the last four months has caused fire loss in the city of about \$23,300, Fire Chief Alex Munroe reported this morning.

This total included the Sidney Lumber Company fire in which the loss was \$14,500. Other individual losses have varied to as low as \$25.

Since April 1 the fire department has responded to 53 false alarms, 55 incendiary grass fires and 14 suspicious or incendiary fires in which there was property damage.

Yesterday the firebug kept the department busy for several hours and three of the fires threatened to reach serious proportions.

A man who walked into a downtown warehouse and inquired for a "Mr. Smith" and left after being told there was no employee there by that name was believed to have started a blaze in a pile of refuse in the middle of the floor which broke out just after he left.

The other fires occurred in a garage on Mason Street and in a building behind 1249 Rockland Avenue used by the Victoria Little Theatre Association.

Peace Assured On Danzig Issue

Germany Expects Favorable Solution But
Rejects Plan of Force, Says Nazi Spokesman

By LOUIS LOCHNER
Associated Press Foreign Staff

BERLIN—A German government spokesman in one of the most unequivocal recent utterances on Danzig said today Germany optimistically expects a solution of the problem favorable to the Reich, but rejects the idea of force to regain the Free City.

"Our Fuehrer is 100 per cent for peace," he said. "Now as before, we expect an uncompromising solution of the Danzig situation along peaceful lines."

"Germany has not the least desire for a conflict of arms to bring about the uncompromising solution that we confidently expect. We reject 100 per cent such a warlike solution and would regret extremely if that were the only way."

"If we did not mean it, don't you suppose we would have started to prepare the public by a press and propaganda campaign for another eventuality?"

German official opinion is that it is only a matter of months until Germany peacefully regains Danzig over Polish objections.

COMMON SENSE

The foreign office spokesman said common sense, including the realization that Danzig is a German city, was bound to prevail.

The official German belief is that the people of Britain, pledged to aid Poland if her independence is threatened, have no desire to come to grips with Germany over Danzig and that therefore the British Government will exercise a restraining influence over Poland by counseling Danzig's return.

Poland, officials in Berlin believe, never would have been so unyielding except for British encouragement. Britain, therefore, could press on Poland a settlement, they declare.

Bride of 24 Hours Leaves Her Husband

Celebration of Wedding
Winds Up in Fight and
Wife Goes to Mother

A marriage 24 hours old broke up in disorder as police supervised the parting of the wedded couple yesterday afternoon.

The couple were married Wednesday night and commenced a celebration of the event. Yesterday afternoon the party was continuing and police were called to a downtown apartment house where the newlyweds spent the wedding night.

On arrival they found the bride sitting in a chair with her nose bleeding and bruised and the husband standing nearby. Both had been drinking, the police report says, and the wife vowed to officers she was going to leave her husband and wanted to go with the officers "home to mother."

The police agreed to stand by while she packed her belongings and left.

By J. F. SANDERSON
Canadian Press Staff Writer

LONDON—Great Britain's first reaction to Germany's pacific utterances over Danzig was one of skepticism and to regard them as part of Berlin's latest "peace offensive" which has been in progress for the last week or 10 days.

The general feeling around Whitehall was that Berlin's statement was a new invitation to Great Britain and France to apply pressure on the Poles to settle with the Germans over Danzig in the same way they influenced the Czechs last year.

It was stated officially that no approach had been made to the British government by Germany to get a settlement with the Poles and, so far as is known here, the Poles have not been approached either.

During the past 10 days there has been a lull in European affairs and one high-ranking British official said the Germans had engaged in a "peace offensive" to impress Britain with their pacific objectives.

MUCH WHISPERING

"There has been a Berlin-inspired whispering campaign in London for the past 10 days to that effect," this official declared.

The reason skepticism was aroused here was the emphasis placed on the return of Danzig to the Reich—which the Poles all along have refused. In addition, Prime Minister Chamberlain said here July 10 that "another power, established in Danzig, could, if it so desired, block Poland's access to the sea and so exert an economic and military stranglehold upon her."

Ever since Danzig became a danger to European peace, the British government has favored settlement by negotiation, but as long as Germany insists the only solution entails incorporation of the Free City in the Reich the situation remains not very hopeful.

MUNICIPAL WORK PROJECTS RUSHED

Applications for
Government Money Go
Forward to Ottawa

The provincial government today forwarded to Ottawa applications for government assistance for \$356,000 in municipal works projects under the aid scheme announced recently.

These are the first of several projects that are pending in a municipal works program that may run over \$2,000,000. There is \$1,026,000 of government funds available for the scheme under which the two governments pay labor costs and the municipalities pay for materials and administration.

E. W. Griffith, relief administrator, who made the announcement, declined to give details of the project until approval has been received. There were nine applications in the group, the major ones being \$100,000 for a Vancouver project and \$200,000 for the Greater Vancouver Water District. Others included small applications from North Vancouver City, North Vancouver District, Cranbrook, Langley, Matsqui, Sumas and North Cowichan district.

Mr. Parizeau said during July and August fogs were a daily occurrence in the ocean off the coast. About 9 or 10 each morning a strong westerly wind gets up and sweeps the fog banks shoreward. Under normal conditions the banks roll around Cape Flattery and along the U.S. shore, but will be blown across to the Canadian side if there is a south-westerly. Sometimes the fog banks will be 8 or 10 miles long and at other times will blanket the straits. During the fall, he explained, the fog usually hangs around the inlets and the ocean is comparatively clear.

Mr. Parizeau said he would rather be in fog in the straits than off the mouth of the Fraser River where it was more dense and likely to last longer. He stressed that his observations were mainly based on one year and conditions might change from year to year.

Commissioner Sloan explained to the witness that the reason the tides were being examined was to show whether gill-netting would be practical in the straits. "Well, gill-netters operate in the places I have mentioned that have tides just as strong or stronger," said Mr. Parizeau. He mentioned such places as Dixon Entrance, Ogden Passage, Rose Spit, Eddy Passage and Johnstone Strait.

(See Salmon Traps, Page 13)

BUSINESS UPTURN GAINS MOMENTUM

WASHINGTON—Commerce Department economists said today that higher wage payments and a lower cost of living are aiding business improvement to gain momentum.

They emphasized that the upswing anticipated for the rest of the year will be far from boom proportions, however.

These factors were cited by the experts as a basis for the expected improvement:

1. Increased government expenditures, which are always heavier in the first half of the fiscal year beginning July 1.

2. Continued expansion in the construction industry, particularly residential building.

3. Better relationship between income and retail prices, giving improved purchasing power for consumers.

Salmon Trap Probe Ends First Sitting Here

Tide and Fog
Conditions in
Straits Told

Visit Traps

First sitting of the Sooke salmon trap inquiry by Commissioner Mr. Justice Gordon Sloan was completed here today and an adjournment taken until August 21 at the Vancouver courthouse.

This afternoon Commissioner Sloan, with commission officials, paid a visit to the Sooke traps to study the system of construction.

Today's hearing ended with presentation of technical information on tides and fogs in Juan de Fuca Strait by H. D. Parizeau, district hydrographer.

J. M. Coady, commission counsel, announced that sports fishermen of Victoria intend to present evidence to the commission, but will not be ready until September, so their testimony has been deferred.

Fishermen's unions were represented at this morning's sitting by John Stanton of Vancouver. He appeared for the Pacific Coast Fishermen's Union, the Salmon Purse Seiners' Union, the United Fishermen's Union and the North Island Trollers' Cooperative Association. With him as adviser was C. Grant MacNeil, M.P. for Vancouver North.

Fishermen, however, have reserved their evidence until the commission sits in Vancouver in August. Trap operators are also reserving their testimony until later on.

Mr. Parizeau, who conducted the survey for mapping the Juan de Fuca Straits in 1932, said tides there were no worse than in several other channels of the British Columbia coast where gill-netting is in operation.

Under extraordinary conditions, such as a strong ocean gale, there were treacherous spots around the headlands such as Otter Point, Beechey Head, Race Rocks and Sheringham Point, he noted. Tides in Johnstone Strait were stronger than anywhere in Juan de Fuca, he said.

Mr. Parizeau said during July and August fogs were a daily occurrence in the ocean off the coast. About 9 or 10 each morning a strong westerly wind gets up and sweeps the fog banks shoreward. Under normal conditions the banks roll around Cape Flattery and along the U.S. shore, but will be blown across to the Canadian side if there is a south-westerly. Sometimes the fog banks will be 8 or 10 miles long and at other times will blanket the straits. During the fall, he explained, the fog usually hangs around the inlets and the ocean is comparatively clear.

Mr. Parizeau said he would rather be in fog in the straits than off the mouth of the Fraser River where it was more dense and likely to last longer. He stressed that his observations were mainly based on one year and conditions might change from year to year.

Commissioner Sloan explained to the witness that the reason the tides were being examined was to show whether gill-netting would be practical in the straits. "Well, gill-netters operate in the places I have mentioned that have tides just as strong or stronger," said Mr. Parizeau. He mentioned such places as Dixon Entrance, Ogden Passage, Rose Spit, Eddy Passage and Johnstone Strait.

Hopes Hindus May Remain in Canada

In an effort to save 35 or 40 Hindus from deportation to India, Dr. D. P. Pandia, former private secretary to Mahatma Gandhi, is in Victoria today interviewing leading members of the city's Hindu colony.

While admitting they entered Canada 15 or 20 years ago illegally, Dr. Pandia believes that now they should be permitted to remain here, as they have established homes in British Columbia.

"After all, Canada permits 150 Japanese to settle in this country each year, but now contemplates deporting East Indians for a minor infraction of the immigration law," Dr. Pandia said.

In Ottawa Dr. Pandia saw Prime Minister King and members of his cabinet. Today he expected to have an interview with Premier Pattullo.

MEETING ON THE ROAD

Two groups of youth hostellers—one on a 10,000-mile two-month tour of the North American continent, the other on a short holiday from

Seattle—posed together for this picture in Mount Douglas Park this morning. From left to right are Alice and Edna Langley, sisters from New York, who are among the 29

members of Rolling Youth Hostel Group No. 2, 4,000 miles out of Northfield, Mass.; Margaret Mosolf, Seattle stenographer; Lois Fuller, Seattle teacher with the rolling hostel party; and Louise Fitch, Seattle telephone operator.

clutched in her hand; Laurene Greenfield, student from Seattle; John Grossheintz, Swiss research chemistry student, with the rolling hostel party; and Louise Fitch, Seattle telephone operator.

Co-operation Appeal Fails in Palestine

LONDON (CP)—The Jewish Agency for Palestine issued a statement today rejecting Colonial Secretary Malcolm MacDonald's appeal for co-operation with the British government's new policy for the Holy Land.

Mr. MacDonald in the House of Commons yesterday urged Jewish organizations to co-operate with the quota scheme of immigration which "Britain is a friend of the Jewish people." Immigration to Palestine has been banned for six months because of illegal entries of refugees.

The agency statement asserted the government's plan for the future of the Holy Land "is devoid of moral and legal basis, and is calculated to destroy the last and most holy possession of the Jewish people—the national home."

"The Jewish agency," it concluded, "refuses to be made in any way responsible for the inevitable consequences of the government's new immigration policy."

Quake in Germany

KOBLENZ, Germany (AP)—The strongest earthquake recorded for decades in the middle Rhine district was felt here today, the tremors lasting 6 seconds. No serious damage has been reported.

Prairie Groups Return to Germany

Bund Members Say Anti-Reich Propaganda Makes Them Outcasts

WINNIPEG (CP)—Hugo Schilling, district leader of the German Bund at Loon Lake, Saskatchewan, declares that "every good German in western Canada, who can raise the fare, will go back to Germany unless the campaign of anti-German propaganda, now being carried on by Canadian newspapers, ceases."

Mr. Schilling passed through Winnipeg last night with a party of Germans who are returning to Germany. They left the St. Walburg and Loon Lake areas of Saskatchewan, recently the scene of settlement by refugees from Czechoslovakia.

Hans Schilling, son of Hugo, said that because of the so-called "anti-German propaganda" in newspapers here his people had been treated as "outcasts."

"We are Canadian citizens but we are being kicked out by propaganda," he said. "We settled the Loon Lake district and developed it from the time there were only two Indian trails until it became one of the best farming districts in that area. But as a result of the anti-German propaganda campaign which began two years ago our fellow Canadians have been treating us as outcasts and second-rate people."

After my experience I would rather be a German citizen than a Canadian citizen."

He maintained a German baker in his district had been threatened with boycott unless he stopped attending Bund meetings. Schilling added, however, that no pressure had been placed on his people to leave the country and that they were doing so of their own free will.

Schilling said the Bund meetings were purely musical and social gatherings to maintain German culture.

Events in Orient

Progress in Tokio Talks

Japanese Unofficially Report Britain's Attitude On Tientsin Conciliatory

TOKIO (CP—Havas)—An authoritative Japanese source said Friday night that an important agreement on "the general questions forming the background of the Tientsin situation" had been reached during the morning by Foreign Minister Hachiro Arita and British Ambassador Sir Robert Craigie.

"Some progress" toward an agreement was reported in an official communiqué issued following the third session of the conference, called as a result of the Japanese blockade of the British concession at Tientsin.

The Foreign Office statement said a fourth session would be held Saturday.

Premier Kichiro Hiranuma, who conferred Thursday with Arita, called a cabinet meeting for Saturday. A communiqué to be issued after the meeting is expected to confirm the accord said to have been reached today.

The authoritative informant said the way was left open for the negotiating of minor questions, and hinted that agreement was reached thanks to a conciliatory attitude taken by Sir Robert, "apparently under instructions from his home government."

He added that the British ambassador from London of the stand he took. It was understood that de facto recognition of Japanese belligerent rights in the Tientsin region was the chief question discussed.

At a press conference the Japanese official spokesman said Japan in no way intends to force Britain to modify its policy toward China, but recognizes the legitimate influence Britain has had in China for centuries. He added, however: "In fact,

there has been a rapid and radical evolution in the Far East in recent years. Japan therefore insists that Britain should voluntarily recognize the new reality and accordingly adapt its foreign policy."

LONDON (CP)—The Foreign Ministry said today that the United States and France were being informed of every step in the Anglo-Japanese conference at Tokio and that Great Britain would not act alone to appease Japan in China.

A spokesman declared Britain would not make any agreement with Japan affecting the major interests of other powers in China without breaking her treaty obligations.

JAPAN WARSHIPS OFF SAKHALIN

Eyes On Island Where Russia Moves To Confiscate Oil

TOKIO (AP)—A naval ministry source disclosed Friday that a section of the Japanese fleet was assembling in northern waters as a result of a Russian threat to confiscate Japanese oil and coal properties. The naval source declared that "our ships and men are ready."

Asked if Japan was likely to take armed action to prevent confiscation, he replied: "In my opinion that is possible. The situation is extremely grave."

(Last Monday Russia announced rejection of a Japanese demand in ultimatum form regarding the rights of Japanese oil and coal concessionaires on Sakhalin Island, which is half Russian and half Japanese. It is off the Siberian coast.)

The government awaited word as to whether Soviet authorities had carried out a threat to confiscate the property at a midnight Thursday deadline.

At Moscow, Shigenori Togo, Japanese ambassador, was engaged in negotiations with S. A. Lozovsky, vice-commissioner of foreign affairs, in a last-minute effort to avert a clash.

Vice-Admiral Masazo Sakonji, president of the North Sakhalin Oil Company, said "Japan will never surrender her concessions." "If necessary," he added, "we will occupy the island."

Official circles expressed a fear of the repetition of the Nikolaevsk massacre of 1920, when some 600 Japanese were slain.

The present dispute arises from a Soviet court decision levying two fines amounting to 700,000 yen (\$190,000) on Japanese companies. The Japanese appealed, charging that Soviet claims were groundless.

Neutrality Delay Slows U.S. Trade, Says Roosevelt

Senate's Postponement Of Act Revision Acts As Brake On Purchases

HYDE PARK, N.Y. (AP)—President Roosevelt, discussing neutrality legislation today, said that from every capital in Europe—without exception—there was evidence of preparations for an eventuality that was believed to be fairly close.

At the same time, Mr. Roosevelt said it should be emphasized that there were no allegations of probabilities of trouble abroad, only as a statement of possibilities.

He contended at a press conference that a decision to defer action on neutrality legislation until the next session of Congress would hurt business.

For instance, he said, a newspaper owner, not knowing how a war might affect his business, would hesitate to place an order for a new press. At the same time, the President said it would take more than a mere crisis to impel him to call Congress into a special session to come to grips with the neutrality problem.

PREVIOUS THREATS ENDED

For several years, he added, there have been recurring threats which did not eventuate in war abroad, and there might be another which might not lead to actual conflict.

But the United States is not in a position to help in a situation of that kind, he said, under the present neutrality law with its arms embargo provision. Members of the Senate who conferred with him and State Secretary Cordell Hull Tuesday night were fully apprised of that fact, he said.

It was at that conference that a decision was reached to abandon efforts to obtain immediate passage of a neutrality bill without an arms embargo section.

Members of the Senate who wanted to postpone action, Mr. Roosevelt declared, have been gambling with the possibility that war will not eventuate.

He indicated the neutrality controversy was closed until Congress reassembles next January, so far as he was concerned.

Roumanian Wheat To Germany and Italy

BUCHAREST (AP)—An agreement by which Roumania will barter 50,000 carloads of wheat to Germany and Italy for armaments was reported today by informed sources.

These sources said the deal called for delivery in September of 30,000 carloads to Germany and 20,000 to Italy with the price fixed at 46,000 lei (about \$322) a carload and with payment to be made in military supplies.

(According to the Roumanian trade commissioner in New York a Roumanian carload is approximately equivalent to 336 bushels.)

Thus, diplomats said, the Rome-Berlin axis paradoxically will assist Roumania's feverish rearmament, which is spurred by fears that the axis might help Hungary and Bulgaria recover territories which they lost to Roumania in the Great War.

(Roumania has received a British pledge of military aid to maintain her independence and has signed a trade accord with Great Britain.)

British May Quit Backing Chinese Dollar

LONDON (CP)—The British government may give up efforts to stabilize Chinese currency, it was stated in usually well-informed circles today.

Great Britain has already dropped \$5,000,000 (\$23,400,000) trying to bolster the Chinese dollar and the government is expected to decline to throw away any more money without co-operation of other nations—notably the United States.

There is a feeling here that further effort to support the Chinese dollar is hopeless as long as Japan is determined to force it down and as long as the United States withholds support.

The Nazi SA men—storm troopers—wear brown uniforms, the SS or Elite Guards, wear black.

Polish and Danzig investigating commissions today continued their separate inquiries into the frontier killing yesterday of Witold Budziewicz, a Polish soldier, by Max Stein, a Danzig customs officer.

Today in Europe

Peace Talks in Europe

Rumored British Ambassador to See Hitler; Reich Economic Expert in London

LONDON (CP)—Talk of overtures toward European "peace" discussion spread today despite a lack of confirmation.

One report was that the British ambassador to Germany, Sir Neville Henderson, might "very shortly" get in touch with Chancellor Hitler "to find out just what his terms are for world peace."

Some saw a possible connection between this and reports current in some foreign diplomatic circles here that Great Britain might favor some "new and sensational attempt to come to a settlement with Germany."

The Henderson-Hitler rumor was attributed to House of Commons lobby talk by The London Daily Mirror, Independent, which also mentioned a report of "persistent" gossip in foreign circles here "that Hitler intends to make a peace gesture and that the German foreign office has given a hint to Sir Neville Henderson to have anti-German propaganda damped down."

The Press showed a glimmer of optimism over the London-Warsaw negotiations for a loan to Poland and the Tokio parleys on Tientsin issues, but remained guardedly noncommittal, regarding progress toward a mutual defense pact with the Soviet Union.

The French government is increasing its pressure to end the impasse in the Moscow discussions, The London Daily Express, Independent, said. In conversations French Ambassador Charles Corbin held last night with Foreign Secretary Viscount Halifax, the envoy asked a new British effort to conclude the Soviet talks rapidly.

The Express added that the British cabinet is generally believed to have arrived at the limit of its concessions, though some circles close to the government believe it necessary to accede entirely to the Russian demands.

The Times of London, Independent, and the Financial Times, Independent, said there are good reasons for expecting an accord on the Polish loan.

Dr. Hellmuth Wohlthat, German economic expert, who is in London for the international whaling conference, "is said to have been in touch with British government officials with the object of informally reviewing the present position of Anglo-German trade relations," the Financial Times said.

"His aim is said to be directed towards ways and means of easing the international situation to some extent on a trade basis with a rigid proviso that Germany should, in return for some form of national assistance to her economic position, turn her industry from a war into a peace basis—in other words, that she should agree to a measure of disarmament."

The News Chronicle, Liberal, complained that in some directions British diplomacy is "blundering along pretty clumsily."

"Its difficulties are largely of its own creation," the paper said. "For example, stupid obstacles are being placed in the way of granting credits to Poland. The treasury is haggling as though we were living in the palmy days of Gladstonian finance."

Jugoslavia Fortifies Border Facing Reich

LIUBLJANA, Yugoslavia (AP)—Jugoslavia is building fortifications along the frontier with Germany as "neutrality insurance," army circles disclosed today.

Five thousand carloads of material have been ordered for construction of artillery emplacements, pill boxes and tank barricades at border points, they stated.

The army men said there was no contradiction between the defense program and Yugoslavia's cordial relations with Germany, emphasized by Regent Prince Paul's visit to Chancellor Hitler in June.

"The new fortifications are for the purpose of preserving our strict neutrality in case of a conflict involving neighboring countries," it was stated.

German Air Force To Train Near Holland

BERLIN (AP)—Manoeuvres of the German air force will be held in the northwestern corner of Germany, bordering on the Netherlands, from August 1 to August 3, the official gazette announced today.

Field Marshal Herman Goering, as Minister of Aviation, decreed limited air traffic in the border area. Exempt from the ban are government and transport planes.

Air defence exercises also will be held in Berlin at the end of July, with a blackout for several nights.

POLES URGED TO AVOID EXTREMISM

WARSAW (AP)—Official Poland sought today to keep public opinion within bounds in the face of continuing incidents in Danzig.

Polish newspapers put on their inside pages stories that a Polish priest, Father Bernard Wlecki, a postal worker from Zopot named Kozuba, and a railway worker, Augustyn Ptrykus, were being held by Danzig authorities.

The papers said no reason was given for the arrest of the priest, but the postal worker was said to have been accused of smuggling Polish newspapers into the Free City, while the railway employee was said to have been detained for political reasons.

Foreign circles, while not denying the possibility of negotiation of Polish-German issues if Germany should be willing to proceed on the principles laid down by Foreign Minister Joseph Beck in his speech of May 5, are of the opinion the Polish army and Polish public opinion present two firm stumbling blocks to such a course.

(On May 5 Beck said Poland was willing to negotiate only on the basis of peaceful intentions and peaceful methods of action and only as regards matters not directly affecting Polish sovereignty over Pomerania (the Polish Corridor) and Polish rights in Danzig.)

The army now is at a high pitch of preparedness and is not in a conciliatory mood, while the public, after four months of strain, is in a determined state of mind.

No Speedy War Victory, Says German General

BERLIN (CP—Havas)—Recalling the saying of Field Marshal Helmuth von Moltke, hero of the 1870 Franco-Prussian War, that "once war breaks out no man can see its duration or its end," General von Templerhof today denied the feasibility of a "lightning" conflict under present-day conditions.

Writing in the military review, Wissen and Wehr, von Templerhof recalled that during the Great War each belligerent sought vainly for a quick solution.

The increasing participation of the air will not shorten hostilities, he asserted, since "the aviation of attacking enemy territory, and the destruction of such inflicts will be lessened by its own losses. The opposed air fleets will exhaust themselves until one surrenders."

Czech Regiment Forms in Morocco

PARIS (AP)—A new regiment, formed almost exclusively of veterans of the old Czechoslovak army, was reported today as being organized at Sidi el Abbes, Algerian headquarters of the French Foreign Legion.

Agence Radical Independante, organ of a wing of Premier Edouard Daladier's Radical-Socialist Party, said 600 former Czech officers and soldiers who joined the foreign Legion recently had been kept in a solid unit.

These men, the agency said, were being held to form the central unit of an entire Czech regiment. Negotiations were under way, the report said, to transfer more than 4,000 Czech soldiers now in Poland to Morocco, where they would be incorporated in the new unit.

French Execute Spy

NANCY, France (AP)—A 31-year-old French blacksmith, Louis Lucien Franck, was executed today for having sold information to a foreign power during the Czechoslovak crisis of last September. Details were kept secret under a new law governing executions.

Franck was said to be the leader of a spy ring. Two other men, a laborer and clerk, both French, were sentenced to life imprisonment.

DISCOVERER OF TURNER OIL DIES

W. S. Herron, President Of Okalta, Operated in Field Since 1912

CALGARY (CP)—A colorful career in the oil business ended today with the death here of W. S. Herron of Calgary, discoverer of oil possibilities in Turner Valley, southwest of Calgary. He was 69.

Mr. Herron, credited with making and losing millions in the 25-year history of Canada's major oil field, was perhaps at the peak of his success when death came.

President of Okalta Oils Limited and president of Sance Mines Limited and Chinook Oils Limited, he was known in Alberta oil circles as the "No-sell Herron."

In 1929 he refused to sell his holdings in Turner Valley oil companies despite bull markets at the time.

His faith in the future of the field, 32 miles southwest of Calgary, in 1929, was no greater than in the early 1900's, a faith he developed shortly after moving from his home at Geleert, Ont., in 1901, to farm near Okotoks.

In 1912, accompanied by A. W. Dingman, he organized the Calgary Petroleum Products Company, and a year later the "discovery well" blew in on Turner Valley acreage. It was the discovery of gas.

In late years, Mr. Herron acquired large interests in various mining concerns of British Columbia.

Mr. Herron was a member of a large Geleert, Ont., family and following a brief education in Geleert schools he became a contractor and timberman in the Halesbury, Ont., district in 1896.

After coming to Alberta at the turn of the century and farming for about 10 years, he moved to Calgary to concentrate on oil exploration and development.

Surviving him are Mrs. Herron, two sons, Harold Frederick and William S. Jr. of Calgary, and a daughter, Mrs. Laura E. Hopkins of Hollywood, Calif., and six brothers and three sisters—Frank Herron, Norm Liskeard, Ont.; Stanley and P. W. of Toronto; W. B. of Los Angeles, Matthew Wilson of Fort St. John, B.C., and Sam, Norm Liskeard, Ont. Mrs. Percy Bonnell of Toronto and Mrs. A. Clark of White River, Ont.

Funeral arrangements will be announced later.

Gang Murder in Philadelphia Street

PHILADELPHIA (AP)—In Philadelphia's third gangland slaying in less than two months, Frank Piccole, 54-year-old recently-paroled convict, was shot today as he sat in a meat truck waiting for a traffic light to change.

Writing in the military review, Wissen and Wehr, von Templerhof recalled that during the Great War each belligerent sought vainly for a quick solution.

The increasing participation of the air will not shorten hostilities, he asserted, since "the aviation of attacking enemy territory, and the destruction of such inflicts will be lessened by its own losses. The opposed air fleets will exhaust themselves until one surrenders."

C.C.F. Nomination

VANCOUVER (CP)—Co-operative Commonwealth Federation members in Vancouver East, at a nomination convention on Sunday, will choose a candidate to run in the constituency in the forthcoming federal election.

Angus MacInnis, M.P., is the only nominee to date.

Selection will also be made for a representative on the C.C.F. provincial council. Nominations to date include Sam Smith, A. Anderson, Charles Plum and W. Wallace.

New Minister Coming

OTTAWA (CP)—When J. A. Schuurman relinquishes the post of consul-general for the Netherlands here to take up a similar position in New York, he will be succeeded in Ottawa by a member of the diplomatic corps with the rank of minister.

Appointment of a Netherlands minister to Ottawa was a foregone conclusion when Prime Minister Mackenzie King named Jean Desy to the joint post of Canadian minister to the Netherlands and Belgium.

Mr. Schuurman is the senior consul-general in Ottawa.

Throwing tacks on a highway is against the law in 29 states.

Insurance Men Name Officers

Fred Cabeldu New President of Fire Insurance Agents' Association

At the annual meeting of the Victoria and District Fire Insurance Agents' Association held in the Sons of England Hall Wednesday night, Fred N. Cabeldu was unanimously elected to the seat of president for the ensuing year. He succeeded Arthur Pitts in the office.

T. A. Brown was elected vice-president and Sam Clegg was named secretary-treasurer. Members of the executive were chosen as follows: Fred W. Waller, Frank Jordan, Ralph Wilson, Thomas Hammond and Gilbert Fraser.

Mr. Pitts gave an extensive report as president during the last year. He pointed out that last August the members were invited to attend the annual convention of the Association of Superintendents of Insurance of the Provinces of Canada in Victoria. Many of the visiting superintendents were entertained at a dinner held by the organization.

Not long ago, he continued, Lloyds of London attempted to obtain a license to operate in the province. A delegation of insurance men already operating in B.C. waited on the government and expressed their views on the subject. They were now given to understand that the government had decided not to grant the license.

Joint executive meeting of the local, New Westminster, Nanaimo and Vancouver organizations had been revived.

On July 28, instead of the usual luncheon meeting of the group, a dinner and entertainment will be held at the Royal Colwood Golf Club.

Monte Blue Injured

HOLLYWOOD, Cal. (AP)—Monte Blue, film actor, was in a hospital today with broken ribs and bruises. He was thrown and trampled by a horse during the filming of a picture Wednesday. His physician, Dr. E. E. Wadsworth, said the actor probably would be kept in bed for several weeks.

NEW ARTIFICIAL DAYLIGHT USED

National Research Council Improves Color Grading in Manufactures

OTTAWA (CP)—An artificial daylight that is better than the real thing has been developed by the National Research Council's lighting experts. It is better than ordinary daylight for color grading, and color grading is a vital factor in the valuation of furs, as it is in paint manufacture and other industries.

By the new methods, it can be done under correct lighting conditions which are constant regardless of weather or time of day. Equally important is the fact that those conditions can be reproduced exactly at other places and times.

Down in Prince Edward Island, furs have been graded by north sky light, but even this was recognized as subject to great variations. The Department of Agriculture asked the Research Council to work out some more satisfactory system. This has been done by Dr. L. E. Howlett and is ready for commercial use.

The ordinary blue electric bulb gives the general effect of daylight, but it does not reproduce it. A bulb alone has the disadvantage of being a "point source" of light which tends to be reflected when an article is examined under it. A diffused source was required.

A special room was developed with an artificial skylight in place of its ceiling. Ordinary tungsten bulbs were used, with a proper color filter to cut down the dominant red radiation of the tungsten. By this filter, the same relationship was maintained between the red and blue rays as in daylight. While cobalt glass is not completely effective as a filter, glass containing the proper combination of pigments is available which maintains the natural correlation between the rays of the spectrum.

The experts emphasize that there is nothing standard about north sky light. It varies according to time of day, according to clouds and fogs. They have tried to produce a compromise between all those variations, or as they say, a mean "color-temperature" of north light. (This measure is based on the intensity of light from a flame of varying heat. North sky light, for instance, has a color temperature varying from 6,000 to 20,000 degrees.)

Diffusion plus correct color of constant intensity is necessary in fine color grading, they say, and that's what they have produced. Because even north light varies so much, all color grading, for papers, cottons, paints and furs, should be done by artificial daylight for precision, these men say.

CANCER PATIENT GUEST AT PARTY

NEW YORK (AP)—Friends of Claude Joseph Bradley, a couple hundred of them, held a wake for him last night, and Brad himself, the life of the party as usual, played the piano.

Bradley told the boys as he plucked a flower from a vase:

"Fellas, according to the doctors, I will soon be wearing a lot of these on my chest. I'll be out in the Flatbush Cemetery. Well, what about it? ... Everybody's gotta die. When you gotta go, you gotta go."

Doctors have told Bradley, suffering from malignant cancer, that he has to go in two or three months.

A former vaudeville actor, but now a salesman for cement, a husky-built 43-year-old man with reddish hair and freckles, Bradley pounded the piano for an hour at the party to an accompaniment of laughter and clinking glasses.

"There was one fellow at the party," said Bradley, "a vice-president of a bank that I owe \$1,200 to. He said to me, 'You

son-of-a-gun, you're going to die and stick me, eh?'

"But he'll get paid. If I can stick it out a little longer everything will be o.k. My affairs are about o.k. now."

It was a "swell blowout," Bradley said, adding that if he accepted all the invitations for week-ends and parties and trips he had received at the party, he'd "have to live for 24 years."

Though his legs are paralyzed, he sold 30,000 barrels of cement last week, all by telephone. He wants to sell enough to provide for his daughter, who is in school, and settle all debts.

Dalai Lama Candidates

SINING, Kansu Province, China (AP)—A grave-mannered five-year-old boy whom China officially favors for recognition as the reincarnation of the Dalai Lama, has started a 1,000-mile journey over the roof of the world to Lhasa, Tibet.

There a bamboo slip drawn from a gold vase will decide whether he or either of two other candidates will become the 14th political pontiff of Tibet, succeeding the Dalai Lama who died in December, 1933. The candidates, born about the time he died, have given what were considered indications of the divine spirit.

U.S. Commodity Credit

Loan \$200,000,000

WASHINGTON (AP)—United States Secretary of the Treasury Morgenthau stated yesterday the Commodity Credit Corporation would borrow \$200,000,000 from the public Monday to take up expiring crop loans now held by banks.

Details of the note issue will be given Monday. The only other commodity credit financing, on May 2, 1938, was the borrowing of \$206,000,000 at 4 1/2 per cent, 1 1/2 year notes.

New Zealand Gets

British Credit

LONDON (CP)—Great Britain has granted a \$9,000,000 (\$42, 120,000) credit to New Zealand, Walter Nash, New Zealand Finance Minister, announced Thursday night.

Of this, \$5,000,000 will be expended on national defence and \$4,000,000 will be devoted to purchases in the British market by private Dominion importers.

Geologists seeking oil-bearing rock are trying the method of gauging the depth of deep rock formations by setting off a dynamite explosion and measuring the time taken for the shock waves to be reflected from the rock structures.

Oak Bay Council Briefs

The corner of Falkland Road and Beach Drive will be widened and made safer for traffic, the Oak Bay Council decided at its meeting yesterday afternoon. The work, recommended by A. S. G. Musgrave, municipal engineer, will provide a wide sweep for cars turning right from Falkland Road into Beach Drive and will leave an island around the telephone pole which comes at the point of the sharp angle of the present corner.

The council confirmed Reeve R. R. Taylor as its representative on the Greater Victoria Transportation Committee and gave its permission to the joint committee to prepare a form of tender for a Greater Victoria transportation system.

A heavy agenda will be before the councillors at their next committee-of-the-whole meeting. Matters referred to the meeting last night included a report from J. Vaughan Roberts, relief officer, on the municipal improvement projects scheme under which the Dominion and provincial governments pay all labor costs; reports from R. F. Blandy, municipal clerk, and the municipal solicitors on a proposed taxi fare by-law; three letters dealing with an appeal from a resident for exemption from the zoning regulations which prevent him from building a janitor's room over the garage of an apartment block, and long reports from the engineer on Uplands water main replacements and relief projects on parks.

The council voted a grant of \$90 to the Social Service Index.

WAR PENSIONERS OF CANADA 97,959

June Figures Show
Annual Payments
Total \$40,177,570

OTTAWA (CP)—At the end of June, 97,959 war pension cheques were distributed, involving an annual outlay of \$40,177,570. This was a decrease of 65 pensions and of \$328,847 from the same date a year ago, according to a statement by Hon. C. G. Power, Minister of Pensions.

Disability pensions numbered 80,183, compared with 80,020 a year ago, and dependents 17,776 against 18,004.

The largest number of pensioners reside in Ontario. The financial liability to the 33,400 veterans and dependents in that province is \$13,930,779.

There are 12,863 pensions in British Columbia, compared with 12,501 for June, 1938. The annual pension payments involve \$5,421,080, against \$5,277,027.

Number of pensioners and amounts in other western provinces, with last year's figures in brackets, follow: Manitoba, 8,544 (\$8,502), \$3,253,059 (\$3,221,317); Saskatchewan, 4,629 (4,734), \$1,724,600 (\$1,782,685); Alberta, 6,498 (6,545), \$2,476,907 (\$2,520,194).

A total of 8,007 Canadian pensioners reside in Great Britain, and annual payments to them amount to \$3,749,831. This compares with 8,414 and \$4,019,789 for last year.

Canadian pensioners residing in foreign countries, mostly in the United States, number 8,404, with an annual outlay of \$3,086,730.

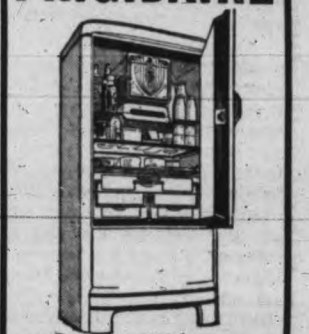

against 8,512 and \$3,126,899 for June of 1938.

Hospital Fund Vote

KELOWNA, B.C. (CP)—Property owners will vote August 4 on a bylaw to raise \$65,000 for financing a proposed \$140,000 hospital unit. The remainder of the money is being supplied in a \$50,000 grant from the British Columbia government and by the Kelowna Hospital Society.

When a mayfly goes below the water to lay its eggs it can remain for long periods, since it "wraps up" a supply of air in its wings before going under.

Finis to Bluffing

EUROPE IS QUIETING DOWN. A spokesman for the German government today tells the foreign press that "we reject a warlike solution of the Danzig problem 100 per cent." Another German representative is reported in London seeking to find out what measure of economic assistance Germany might expect if she attempted to turn her industry from a war to peace basis by agreeing to some measure of disarmament.

With this possible change in attitude British Prime Minister Chamberlain's statement in the House of Commons a week ago probably has been a determining factor. Mr. Chamberlain left no doubt that it would be up to Warsaw to go to war over Danzig or to come to terms with the Reich through negotiations. Backing him up has been all the demonstration of increased military power in Britain and of the will to use it, if occasion arises. It seems to be dawning on Hitler that the era of capitulation to the axis is nearing an end, that Britain means business, despite her failure so far to bring in Russian support.

There was also the significant statement a few days ago of former Premier Andre Tardieu of France. He said Hitler had got by for four years on bluff, that he dare not fight because he has not the means and because he would be assassinated by one of his own people immediately war broke out. This Tardieu outburst lined up with the recent utterance of General Gamelin, the designated allied commander-in-chief if war comes. Gamelin also directed the attention of Frenchmen to the fact that there were still, even in France, persons highly placed who believed in further appeasement and he warned against them.

The meaning of these statements is apparently being grasped in Berlin. Mr. Chamberlain has committed himself so unequivocally to his own people and the French have supported him in such a way as to make it clear that there can be no hope of another Munich betrayal. The Nazis know that their bluffs from now are to be called and that's one thing they don't want.

Mr. Hepburn Is Curbed

PREMIER HEPBURN, AS PREDICTED in recent dispatches to this paper from Ottawa, is to stay out of the federal election campaign. He says definitely now that he will not take the platform "one way or the other." He assures Liberal members of the Ontario Legislature that he will not "take it out on them" if they support Liberal federal candidates.

It was his own supporters who have thus curbed Mr. Hepburn's inclination to carry to the public his personal feud with federal Liberal leaders. His supporters know that such a course of action would react against themselves by shattering their own party. It has also probably dawned on Mr. Hepburn that he himself would be the loser as his supporters are not behind him in his personal feud. They probably have let him know they would support federal Liberal candidates anyway, and that if "Mittie" didn't like it, it would be the end of him as their leader.

An indication of how Ontario people feel about Mr. Hepburn's splenetic outbursts is given by the Conservative Ottawa Journal. It declares that many people must be beginning to think, and not without reason, that government in Ontario is being subordinated to Mr. Hepburn's personal vendetta with Prime Minister Mackenzie King. Hardly a week passes now, or a day, which does not see Mr. Hepburn scolding something or refusing to co-operate in something just because it is proposed by Mr. King. "What we are getting," says the Journal, "is government shaped to suit the personal whims and idiosyncrasies of Mr. Hepburn. The thing is becoming intolerable. Government by spite, government which is degraded into a personal matter, must be bad government at any time. The time has come when this bickering has got to be ended. Decent, efficient government is more important to Ontario and to Canada than the personal prejudices of Mr. Hepburn—or of any other man."

Another Dream Coming True

FOR MANY YEARS USE OF THE SUN'S rays for practical heating purposes has been a dream. It has been demonstrated in laboratory form, and expositions have displayed experimental plants that worked.

Now it has come to practical reality. In Miami, Florida, a housing project for 345 families, the "Edison Courts," will be equipped with solar hot-water heaters. If not the first of their kind, they are probably the first installed on any such large scale. On each roof will be a shallow, glass-covered box, through which run copper pipes. The sun's rays will heat the water to 180 degrees, whereupon it will be drawn off and held in an insulated tank, wherein it will lose less than 7 degrees in 24 hours. The cost of installation is greater than that of ordinary heaters, but the cost of running them should be nil. Plans are under way to install them in other cities, and even in the north, engineers say, they are practicable.

Thus the sun, always a good friend of man, is bent to yet another task in his service.

This Changing World

THE 86-ROOM, FRENCH CHATEAU AT fashionable and exclusive Cold Spring Harbor, Long Island, once the home of the late Otto Kahn, the international banker, philanthropist and social leader, has been taken over by the New York City Department of Sanitation for the use of its employees who clean the streets and collect the city's garbage. There they may spend their leisure time in a luxury to which they have not been accustomed. Purchase of the property was financed from the employees own welfare fund.

Now street sweepers and garbage men can go out to Long Island with their families and relax in the formal gardens that the late Georges Clemenceau once said reminded him of Versailles, or they can go into the dining-room of the chateau and drink a toast to the Duke of Windsor, who was dined and wineed there in his princely days. If there is a disposition to smile at the picture of the humblest employees of a great city enjoying one of the most magnificent of Long Island estates, the Kahn heirs apparently find nothing incongruous, for they sold it to the sanitation men for less than its market value. The sons of Otto Kahn even were there to welcome the new tenants when they took over the 400-acre estate to rechristen it "Sanita."

Large country estates are drugs on the market everywhere. They are anachronistic carryovers from a more exclusive age into this era of rising taxation. In England the process of breaking them up has been under way since before the War. On this continent the same economic forces are at work. There may be something humorous about the sanitary men taking over the grand home of an international banker, but his heirs are faced with the realities of this changing world.

Life—Longer and Better

THE AVERAGE WAGE-EARNER NOW has reason to believe he will, with luck, live to be nearly 62. That estimate of life expectancy at birth, established for 1938 by the Metropolitan Life Insurance Co., is the highest ever recorded. It applies to the company's policy-holders, but the general expectancy is if anything a little higher.

Back in 1911, when such figures were first kept, the average life expectancy on this scale was only 46.63 years. So the improvement in the average man's chance for long life is certainly marked.

What we need now is not so much to make life longer as to make it better. Just as the improved long-life expectancy has been achieved by steady work on matters of public health and improved diet and living conditions, so the job of making life better as well as longer will be a long one. Its successes are made up of the sum total of many little social advances. Shorter working hours here, better recreation facilities there, a war prevented, a disease conquered—little by little we inch forward toward a better as well as a longer life.

Correct this sentence: "Here, Dad," said the modern youngster, "is your change."

The good St. Swithin is in for as tarnished a reputation as that of the lowly groundhog as a weather forecaster.

One of those boards has found that we are brightest at 25. This phase passes quickly, though, and one becomes surprisingly human and companionable.

Another impediment to marriage, the Wall Street Journal has discovered, is the increasing difficulty in supporting the government and a wife on one income.

There is just one thing the public would like to know about the farm drought. If there is a line between drought and flood conditions, when does it ever come, and where?

The man who beat 400 fellow grocers in a trade questionnaire knew that a prawn is a small salt water crustacean. Wouldn't he have been surprised if they had asked him what a salt water crustacean is!

Radio Advertising Standards

From Ottawa Citizen

The National Association of Broadcasters, which includes 400 United States radio stations, are taking steps to raise the standard of radio advertising. At this year's annual convention they have resolved to ban certain classes of advertising. No longer will they accept advertising for any spirituous or hard liquor, drugs specified as "cures," nor from fortune-tellers and similar practitioners in the occult. Other regulations under this new code demand that no attacks on the products of others nor misleading statements as to price and value may be made.

In many directions this new radio code of advertising, intentionally or co-incidentally, follows the standard set by the Canadian Broadcasting Corporation. It was early realized in Canada that in a broadcasting service designed in the interests of the listener through national control and operation, regulations must be applied to what may or may not be advertised.

Canadian listeners, however, tune into many United States stations. Appreciation of this new standard in radio advertising adopted by the National Association of Broadcasters will, therefore, not be confined only to the listeners in the United States.

Thoughts

And they spake unto him, saying, If thou wilt be a servant unto this people this day, and wilt serve them and answer them, and speak good words to them, they will be thy servants forever.—I Kings 12:7.

Let thy servants be such as thou mayest command, and entertain none about thee but those to whom thou givest wages.—Sir Walter Raleigh.

Loose Ends

By BRUCE HUTCHISON

FREEDOM

AN OBSERVER OF current North American phenomena cannot fail to observe the increasing freedom of the English language in these parts. A few years ago it was not considered polite in a decent household to refer to lice, except in cases of immediate urgency and infestation. Now, of course, the word lousy is the most popular and respected adjective in the language, so that elderly wives will say indulgently that their husbands are lousy bridge players, and mothers warn their little children not to play with the lousy children next door, and eminent critics speak of books, pictures, plays and movies as lousy, which is considered the most adequate term of technical description available.

Lately the language has taken another stride forward towards perfection. The words "damn" and "hell" have been made respectable, have been invited into the most refined households and have been given the freedom of the city. You can remember when both were considered blasphemous, though why I could never see, since they have no religious reference. Even up to a few years ago the magazines would not admit them, and the unhappy movies, having to float like ectoplasm in a dream world of their own, still have gangsters saying "Gosh!" and strong, rough heroes, saying "Damn!" because the Legion of Decency hasn't advanced with the times and still refuses to recognize damnation or hell.

Now the Saturday Evening Post has taken to sprinkling its pages with damns and hells in every third paragraph, in a bold and magnificent protest, like a small boy who has just learned to spit through his teeth. It is a mighty impressive revolution. It shows the depths of freedom and individual initiative that still lurk beneath the gay outside of the American character. In a great crisis of this sort America insists on asserting itself. It stands up and says damn, it tells everybody to go to hell.

When damn and hell burst for the first time into respectable print it made everybody gasp. Here, thought the ordinary man, is emancipation. Here is the end of prudery. Here is freedom of speech at last. Here is a new world. But the novelty seems to have worn off.

After you have read damn and hell in the Post a few times you cease to gasp. You are no longer staggered. It doesn't look like a new world any more. It looks like the Saturday Evening Post.

It is so with all profanity, as with ice cream, as with love, as with all life. After the first exquisite moment the glory begins to fade, the shine begins to rub off. The first time you said damn and hell it sounded fine. You had all the fine, wholesome satisfaction of a carnal sin. But now it is part of the Post's editorial policy, and will soon be spread over every printed sheet in America, it lacks glamour. It doesn't make you feel wicked any more.

And it is my fear that, as civilization unfolds and language grows increasingly free and progressively obscene, there won't be any fun in it any more at all. We shall be reduced in the end to speaking naturally.

Already profanity is generally reduced to a dead level of mediocrity. Few men swear with any imagination. Their vocabulary is limited to a few terms of blasphemy and three or four obscenities. Why, not in 50 years has the language added a sound cuss word of general use. In that time thousands of technical terms in other fields of endeavor have been imported into the language, put into distribution, polished up, streamlined and accepted everywhere so that today a native of the last century would not know what we are talking about half the time.

Yet in the field of human emotion, in the expression of our deepest feelings, we have made no progress whatever. The man who hits his finger with a hammer today enjoys no advantage over his grandfather, despite the improvement in tools and mechanics. He says the same thing. There has been no achievement in this field, no thought, no imagination. And where you do find an original artist, a man who can say something really new and striking and colorful to express his emotions, nobody seems to imitate him.

In my time I have heard some magnificent cussing from a few ignorant men in the backwoods, natural geniuses whom the world has never known or appreciated. Their art has never progressed beyond their little local surroundings. Even their companions have failed to take advantage of the educational opportunities thus afforded. They have stuck to the old ways so that there is nothing in our current profanity to shock anyone any more, nothing which really relieves a man's feelings.

After you have said the same things over and over again, what possible use are they to you as an emotional safety valve? So long as they might distress your wife and shock the neighbors and pervert your children and imperil your immortal soul; they had some authority, some validity. Now when your wife, neighbors and children all know them and say the same things themselves, and read it in the papers as well, what is the use of saying it? A man might as well stay silent and let his feelings writhe unrelieved. In the end it is going to be very bad for our nervous systems.

Why?

Why do men stare? the young girl said; Then dyed her hair a deeper red. Bought rouge of a still brighter hue, Re-shaped her lips with sticky goo, Wore clothes which showed her every line, And then went forth at last to dine. "Give me," said she, "an answer fair: Why do men stare? Why do men stare?"

Mexico Gains

By ELMORE PHILPOTT

ONE OF THE results of the Fascist victory in Spain was the forced migration of numerous democrats. Many distinguished scholars were among those who chose Mexico as their new home. A small group of medical men from Madrid has established itself in Mexico City, in connection with the university there, and has already contributed much in the way of specific accomplishment. The group is responsible for some exceptionally fine work, already published, in connection with research into tumors of the brain.

The whole history of European civilization is a record of the fertilizing effect of refugee migration. The case of the Huguenots is so well known as not to require more than passing mention. The Puritan fathers were much akin to refugees. Many of those who came from Holland were indeed actual refugees.

Recent upheavals in Europe have sent to the United States scientists and physicians who are among the world leaders in their own professions. In a less striking degree the same principle applies all down the line. Germany and even Italy have already driven out men which, from every measure of real greatness, dwarf the goosestepping gangsters and the bullies whose arguments are so flimsy that they cannot stand the strain of anyone talking back.

The man who discovered the means to wipe out the great human scourge of diphtheria is a refugee. Great musicians, great philosophers, great physicians—these are as nothing compared with obedient yes men in the dictator states. So out they go.

It is small satisfaction to know that Germany's loss is the outside world's gain. For the same enthroned stupidity which is responsible for the exodus may be responsible for a lot more deadly kind of mass comings and goings before it disappears.

THE WOMEN'S REGISTER

From Toronto Star

The plan to register all the women of Canada, with the exception of those in Quebec, for national service might be of value if conducted under suitable auspices and in a period of supreme national crisis. The registration itself is not only a colossal task but a task of considerable delicacy which easily could be handled in a way that would create misunderstandings and antagonisms.

According to one sympathetic explanation of the plan, "It is expected that most women approached will be willing to co-operate, though if canvassers find anyone hostile to the scheme or openly disloyal, that information, too, will be filed." A statement of that sort is calculated to arouse suspicion and resentment. Canadian women are not easily intimidated and they will object to anyone questioning their good sense or patriotism.

A group of Toronto women headed by Mrs. John Grieve and Mrs. F. G. Fowke openly question the wisdom of the registration, declaring that it really is a registration for war service and likely to spread fear and war hysteria. A national registration will scarcely contribute to the confidence that is needed for the business revival for which industry and the unemployed are praying.

The most pressing obligation resting on the people of Canada is to improve economic conditions and enable our citizens to earn their livelihood and live normal, happy lives. Dangerous as are the times in which we live, it would be a mistake to assume that war is inevitable and, on that account, to neglect the most pressing of our national duties.

THE FRUIT DIET

To the Editor:—Here is the operandi by which our internal economy works: When our bloodstream is out of kilter a racket is kicked up. Maybe some germs come to assist and maybe not. At any rate, we live on sweet cherries and the bloodstream finds a full supply of iron, calcium, etc., in the cherries as well as the purest of pure live water. And so we carry on, and repairs to nerves, brain, etc., are completed and our vital forces improve.

My readers may say, "But the cherry season is too short and what must we do when the cherries have gone?" The answer is: "Continue on with peaches and when they are over turn to grapes and autumn fruits."

When you hunger for bread, or meat or fish or corn, the old trouble is at an end.

GEORGE HEDDEN CORSAN.

WHO NOAH?

From Trenton Courier-Advocate
Wonder what Noah would have said if he had been told by the chief of police that there was but one hour's parking on Mount Arrarat.

I don't believe there is any chance of war, and I am very optimistic about business in the United States in the near future.—Sir William Wiseman, Kuhn-Loeb partner and former head of the British Secret Service in the United States.

DAVID SPENCER LIMITED

New Seasonable Merchandise... at Thrift Prices Saturday... On the Bargain Highway

100 WOMEN'S AND MISSES' NEW SUMMER DRESSES \$1.49

Each... Dresses have just arrived, and represent a cool, comfortable charm that will make the warm days of summer more enjoyable. They are of cotton mesh, in soft shades and white. Cape or plain short sleeves with contrasting belts and trim. Sizes 14 to 44.

HE FOUGHT PRUDERY

From Vancouver Sun

Havelock Ellis is dead in England at the age of 80, and to his memory may be inscribed the fact that he headed the campaign against that vicious prudery which characterized the thinking of the age in which he was born.

One must not forget that Havelock Ellis' frank discussion of sex paved the way for that candor of expression and freedom of thought which have made possible, not only the reasonable exposure of bodies in the pursuit of health, but also the campaigns against social diseases which have already saved the world much misery and suffering.

Havelock Ellis made sex a science rather than a topic for surreptitious gossip. He fought prudery and he made a good job of it.

Dead at 80, he can claim the gratitude of an enlightened world.

Better English

By D. C. Williams

1. What is wrong with this sentence? "I was kind of tired when I arrived."

2. What is the correct pronunciation of "roseate"?

3. Which one of these words is misspelled? Proof, prove, propaganda.

4. What does the word "contemptuous" mean?

5. What is a word beginning with inv that means "not having legal force"?

Answers
1. Say, "I was somewhat tired."
2. Pronounce ro-zé-at, or as in nó, e as in me, a as in ate, accent first syllable. 3. Prove. 4. Ex-pressing scorn or disdain. "He replied with contemptuous brevity." 5. Invalid.

UNION OF DEMOCRACIES

To the Editor:—It seems to me that any one who has read Clarence K. Streit's book, "Union Now," must acknowledge the splendid promise his plan for the union now of 15 great democracies offers of solving many of the grave problems which harass the world today and keep our statesmen going in blind staggers.

Mr. Streit's plan is definitely news, big news. Fortune Magazine recently published an editorial giving it enthusiastic praise. Reader's Digest reprinted a condensed version of that editorial as being newsworthy. Forum Magazine features the plan prominently in its current July issue.

EDGAR BROOKE.

Richmond.

SO IT IS

From Toronto Star

A country club is where you go to meet your city neighbors.

Lord Lothian, recently appointed British ambassador to the United States, is working today with Wickham Steed in organizing a British Unionist movement.

Eminent men everywhere are declaring that this union plan is the greatest concept for the good of the world which has come to light since the formation of the union of the 48 United States of America.

MISS FRITH

1619 DOUGLAS STREET

WEDDINGS

PRESTON-ARTHURS

In a setting of pink and blue flowers, Mildred Yateve, only daughter of Mr. and Mrs. W. T. Arthurs, 1612 Richmond Road, last night at the Metropolitan United Church became the bride of Mr. Shirley Guy Preston, only son of Mr. and Mrs. L. J. Preston, Cdnco, B.C.

Rev. William Brown, of St. Giles' Church, Vancouver, read the service. Mr. Edward Parsons was at the organ.

Given in marriage by her father, the bride was an attractive picture in her jacket frock of white silk net, with long sleeves and train. Her veil of bridal net was floor length and was held to her head with a coronet of orange blossoms. Pink roses and carnations formed her shower bouquet.

Miss Ellen Wright of Vancouver was the bridesmaid in a gown of primrose yellow sheer, with a lace yoke and tied with a blue sash. Her hat was a turban and her accessories were blue. An arm bouquet of delphiniums and Tillam roses set off her ensemble.

Mr. Fred McCague attended the groom and the ushers were Mr. Rodney Butler, Kaslo, B.C., and Mr. Charles Doodson, Duncan.

As the register was being signed Miss Shirley Akenhead delighted the guests with her rendition of "Because." Following the service a small reception for relatives and intimate friends was held at the home of the bride's parents, where Mrs. Arthurs received in a navy blue crepe gown, with flower-trimmed hat and a corsage of roses and carnations. Pink and blue flowers graced the reception

rooms and the bride's cake centered the supper table.

When she left for a motor trip to California, Mrs. Preston donned a Japonica coat and dress, with accessories in darker shades. After visiting California Mr. and Mrs. Preston will make their home at Smithers, B.C.

McKIM-THOMPSON

The marriage was quietly solemnized at the picturesque little Mission Church at Koksilah on Wednesday at 12.30 between Peggy, twin daughter of Mr. and Mrs. Charles Thompson, Koksilah, and Constable Stuart Allister McKim, only son of Mr. and Mrs. A. S. McKim, Salmon Arm, B.C.

The service was conducted by Rev. George Kinney. Constable E. Sarsiat supported the groom. The bride was given in marriage by her brother, Dr. Darcy Thompson. She made a charming picture in a floor-length gown of white satin, cut on princess lines with Juliet collar and long sleeves. Her long embroidered veil was attached to a coronet of orange blossoms. She carried a shower bouquet of pale pink schizanthus and sweet peas, and her only ornament was a diamond pendant.

Her attendants were her three nieces, Miss Marie Williams, who wore a long dress of pale blue organdie, and Evelyn and Barbara Williams, in dresses in pastel shades of pink and mauve, and who also carried bouquets of sweet peas and schizanthus. The church was prettily decorated with flowers by friends of the bride. Mrs. J. Johnson was at the organ.

After the wedding a reception was held at the home of the bride's parents for the immediate family and a few personal friends. The rooms were prettily decorated with flowers. A three-tier wedding cake graced the centre of the table, the base being surrounded by pale blue delphiniums and pink sweet peas. The happy couple left for a short honeymoon in Victoria, the bride wearing a white swag polo coat over a dress of aqua blue flat crepe with aqua blue felt hat and white accessories. On their return they will live on Nagle Street, Duncan.

Out of town guests were: Mrs. A. S. McKim, Salmon Arm; Mr. and Mrs. S. E. Williams, Misses Marie, Evelyn and Barbara and Ernest Williams, Port Alberni; Mrs. W. Granfield, Cobble Hill, and Mr. and Mrs. W. Willis and Gwen, Victoria.

Canadian Masons At London Dinner

LONDON (CP Cable)—Thirty visiting Masons, including eight Canadians, who attended installation Wednesday of the Duke of Kent as Grand Master of the United Grand Lodge of English Freemasons, were dinner guests last night of the Canada Lodge in the Connaught Rooms of Freemason Hall.

The lodge, founded in 1911 by London's Canadian Masons, is noted for the services it rendered Canadian troops during the Great War.

Canadians present included Rev. George Kerby, Calgary.

The Duke of Kent succeeded his great uncle, the Duke of Connaught, as Grand Master, and was represented last night by the Earl of Harewood.

Rt. Hon. R. B. Bennett, former Canadian Prime Minister, also was present.

LADIES' SLACKS

Mr. and Mrs. John Conover Powell, who were married last Saturday at St. Mary's Church, Oak Bay. The bride was the former Marion Morrison. Mr. and Mrs. Powell will make their home in Seattle.

SOCIAL and PERSONAL

Mrs. E. W. Hamber entertained at a small luncheon party at the Royal Oak yesterday.

Mr. and Mrs. N. F. Brand motored from Calgary to visit Mrs. Brand's sister at Twin Oaks, Langford.

Miss Margaret Connorton of Vancouver is spending the summer vacation with her grandmother, Mrs. L. Powers, Langford Lodge, Langford Lake.

Mrs. F. G. Pell, who has been visiting her sister, Mrs. L. Power, at Langford Lake, has returned to her home on Ryan Street, Victoria.

Miss Eleanor Jordan has arrived from her home in California and will be the guest for a week of her cousins, Mr. and Mrs. C. W. Stanbury, Prospect Place.

Mr. and Mrs. Ian Simpson, Glenlyon, Beach Drive, have as their guest Miss Alice Wickwire, Ottawa, private secretary to Hon. J. L. Isley, Minister of National Revenue.

Mrs. Nelson A. Hicks and her little son, Bobby, from Vancouver, are spending two weeks with Mrs. Hicks' parents, Mr. and Mrs. D. R. Sheret, at their summer home at Cordova Bay.

Mrs. George Burnham, who has been spending a vacation at Robert's Bay, Sydney, with her three children, as the guests of Mr. and Mrs. E. C. Haycraft, will leave on Saturday for her home in Seattle.

Mr. Fred Jones, Rockland Avenue, has left for his ranch at Golden, B.C. He will be joined next week by his son-in-law and daughter, Major and Mrs. Herbert Oliver, Hongkong, and their little daughter, who have been visiting him here for several weeks.

His many friends in Victoria will be interested to learn that Mr. Peter Swan, elder son of Dr. and Mrs. H. P. Swan, formerly of Duncan, who are now living in London, has returned to Canada and will teach philosophy for a year at St. Michael's College, University of Toronto.

Miss Kathleen Dennis was hostess at her home in Duncan Wednesday afternoon at a miscellaneous shower in honor of Miss Thelma Duggan, whose marriage is planned for next week. Miss Duggan was presented with a corsage bouquet of sweet peas. The many useful and lovely gifts were delivered at the door in a decorated box. Among the guests were Mesdames A. J. Castle, W. Cummins, J. King, G. W. Brookbank, J. M. Allanson, E. Plaskett, J. Dunkeld, G. H. Savage, H. Jackson, J. A. Kyle, M. Armstrong, E. Potts, C. Meredith, G. Kennett, W. Dennis, A. J. Duggan, G. Huish, Miss Joyce Cummins and Miss Alice Tillotson.

Mr. and Mrs. F. Knight, 619 Nelson Street, have as their guests for a few days Mrs. O. Moody, Covina, Calif., and Miss A. Sexsmith, High River, Alta.

Mrs. Roland Waterman and Master Michael Waterman of Winnipeg have arrived to visit Mrs. Waterman's mother, Mrs. C. L. Douglass, 3121 Yew Street, for several weeks.

Mr. and Mrs. A. A. McKinnon, the Uplands, have returned home from a six weeks' motor tour of the interior of the province and Washington State, during which they visited Grand Coulee Dam.

Mrs. Charles Harold Goodland, the Lady Mayoress of Taunton, Somersetshire, England, who has been visiting her cousins, Colonel H. T. Goodland and Mrs. Goodland, the Uplands, has left for her home in Great Britain.

Mr. Hoadley Mitchell, who is attending the Massachusetts Institute of Technology in Boston, is expected home next week to spend his summer holidays with his mother, Mrs. A. K. Mitchell, Terrace Avenue.

Mrs. John Deane of Pentlton is spending a few weeks in Victoria with her parents, Mr. and Mrs. Horace Hamlet, Alphon Street, while en route home from San Francisco, where her husband, Constable Deane of the Provincial Police, is on duty at the Golden Gate Exposition.

Mr. and Mrs. Tom Wallace, 636 Grenville Avenue, celebrated their 37th wedding anniversary recently, a number of friends of the Esquimalt United Church Ladies' Aid visiting them in the evening, when games were played. They were the recipients of two lovely gifts, a purse and a tobacco pouch.

Mrs. W. B. Lambert, Despard Avenue, entertained this afternoon at the summer residence of her mother, Mrs. Goulding Wilson, "Myowne," Shawnigan Lake, at a picnic and swim party in honor of her guest, Miss Barbara Symons of Vancouver, who came over from the mainland on Wednesday afternoon.

Mrs. D. A. Ricardo entertained recently at a birthday party at her home, Hillside Avenue, on the occasion of the sixth birthday of her daughter, Diana. Pink and green streamers, decorated the table, which was centred with a large birthday cake. Games were enjoyed, the young guests drawing prizes from a fish pond. Assisting the hostess was her mother, Mrs. A. J. Ridland, and the guests were Dian Jean Boscock, Jean Evanoff, Belle Luscombe, Billie Parsons, Raymond Greenwood, Ruth and Billie Cartwright and Mesdames T. Luscombe, D. Cartwright, C. Parsons and L. Greenwood.

Mr. and Mrs. Norman Allen and baby daughter, Patricia, left on Monday for Seattle, via Nanaimo and Vancouver, after spending 10 days with Mr. Allen's parents, Mr. and Mrs. Bevan Allen, at their summer home at "Cliffside," Shawnigan Lake.

For the marriage of Miss Evelyn May Ralph and Mr. George Palmer this evening at the Centennial Church, Gorge Road, out-of-town guests include Miss Mabel Green and Mr. Stanley Green of Seattle, who are staying with their aunt, Mrs. J. W. Green, Tollcross Avenue, and Mrs. J. L. Ward of Pender Harbor and her son Jack, who are staying with Mrs. C. M. Allison, Lavender Avenue, Marigold.

A no-host dinner will be given tonight at the Union Club in honor of Mr. Fred Pease who will be married next week to Miss Elizabeth Stewart. Enormous bowls of pink carnations will decorate the table and a rope of twined carnations will be placed above each guest's cover. The guests will be Hon. John Hart, Brigadier-General J. C. Stewart, Dr. A. D. Bechtel, Major Patrick Baird, Mr. Aubrey Clarke, Vancouver, Mr. Lorne Campbell, Vancouver, Mr. Charles Heisterman, Mr. Royden C. Morris, Mr. W. B. Lambert, Mr. Peter Wentworth Bell, Mr. Goldwyn Terry, Mr. Kenneth Sangster, Mr. A. Gord, Mr. John Featherstone, Mr. Manley Clark, Mr. Barclay Montiehl, Mr. Lowell P. Mickelwait, Seattle, Mr. Robert Klementz, Morris-town, New Jersey, Mr. C. W. Stanbury and Mr. Clive Campbell.

Miss Dorothy Hume was guest of honor this week at a miscellaneous shower at 320 Vincent Avenue, the joint hostesses being Mrs. J. Hume, Miss V. Medele and Mrs. H. K. Hume Jr. Miss Hume was presented with a corsage of sweet peas and carnations. In the living-room, arranged with a profusion of summer flowers, a miniature green-and-white bungalow, with a bride and groom in the doorway, held the many lovely gifts. Games were played, the prizes being won by Mrs. E. Cummins, Mrs. H. Medele and Mrs. M. W. Wratten. Tea was served from a dainty table centred with sweet peas in a tall silver basket. The guests included Mrs. P. Hope, Mrs. Gray, Mrs. H. Hume Jr., Mrs. Cox, Mrs. T. Shaw, Mrs. E. Bayliss, Mrs. R. Cliff, Mrs. W. Tucker, Mrs. F. Hare, Mrs. T. Vance, Mrs. F. Morris, Mrs. T. Drysdale, Mrs. J. Smithson, Mrs. D. Ewing, Mrs. E. Valentine, Mrs. W. Rutherford, Mrs. E. Wilkinson, Mrs. G. Sinclair, Misses D. Hume and J. Craig, Messrs. R. Cliff, F. Morris, H. K. Hume, W. Turner, W. Rutherford, D. Ewing, J. Cox, E. Bayliss and J. Hume.

Wedding Attracts Many Visitors

A number of out-of-town people have arrived in town to attend the marriage tomorrow morning at 11 of Miss Phyllis Pooley to Mr. Robert Driscoll at St. Paul's Naval and Garrison Church, Esquimalt.

Mr. and Mrs. Brice Evans of Vancouver are spending the weekend with Mrs. Evans' aunt, Mrs. C. F. Armstrong, York Place. Mrs. Evans was formerly Miss Daphne Allan of Victoria. Mr. Evans will be best man for Mr. Driscoll. Their five-weeks-old son is remaining in Vancouver.

From Pennsylvania has come Mr. Will Jamieson, former schoolmate of Mr. Driscoll in Boston, who will be one of the ushers, the others being Mr. David Pugh and Mr. Jack Gillies of Vancouver and Mr. Lowell Mickelwait and Mr. R. H. Tye, Victoria. Mr. Jamieson, Mr. Pugh and Mr. Gillies are staying with Mrs. Armstrong and Mr. Driscoll's mother, Mrs. M. F. Driscoll.

Miss Lillian Denbigh, Vancouver, arrived today to join her sister, Miss Maureen Denbigh, one of the bridesmaids, as the guest of Miss Gloria Wilson, Uplands. Mr. S. C. Sweeney, uncle of the bride, will stay with Mr. Anthony Williams, York Place, while in the city.

Tomorrow evening Mr. and Mrs. Brice Evans will entertain the wedding party at the supper dance at the Empress Hotel.

The monthly meeting of the members of St. Matthew's Guild, Langford, was held at the home of Mrs. A. Cooper on Wednesday afternoon. H. A. Hineks presided and welcomed three visitors. Arrangements were made for the annual garden fete to be held on Wednesday, August 16, at Langford Lodge by kindness of Mrs. L. Power. Conveners were appointed for home cooking and candy stalls. Housewife an art gallery and a treasure hunt were the attraction planned by the members. Tea was served by the hostess and Mrs. C. Willard at the conclusion of the meeting.

A vanishing cream that repels mosquitoes is a new summer idea.

GRACIE FIELDS DIVORCED

LONDON (CP)—Gracie Fields, one of the world's highest paid comedienne, won a divorce decree nisi today on grounds of misconduct of her husband, Archie Pitt, who did not defend the action.

She and Pitt, a theatrical manager, were married 16 years ago.

King and Queen At Reception

LONDON (CP)—The King and Queen attended a reception last night given by the Duke and Duchess of Kent to Prince Paul, regent of Yugoslavia, and Princess Olga.

A garden party scheduled at Buckingham Palace in the afternoon was turned into a family tea when driving rain forced its cancellation.

Many of the 10,000 guests invited to meet Prince Paul and Princess Olga arrived by the palace gates to find notices of postponement hung on the railings.

The King and Queen served tea inside the Yugoslavia rulers, members of the Royal family, and Prince John of Luxembourg.

Arrangements were completed recently for the St. Paul's Church, Esquimalt, jamboree to be held in the church grounds and hall in the evening of August 2. All church organizations are taking part and the following are in charge of the numerous attractions: Work stall and home-cooking, St. Paul's W.A.; midway, St. Paul's A.Y.P.A.; musical entertainment, Mr. H. Dobson; refreshments, the choir; soft drinks and ice cream, Sunday school teachers; lights and decorations, Commander G. L. Stephens; advertising, Mr. A. H. Dobson. Two booths will be erected for fortune-telling.

Male guinea pigs are known as boars and females as sows.

ENGAGEMENTS

The engagement is announced of Jennie Victoria, youngest daughter of Mr. E. V. Morrand and the late Mrs. Morrand, 1216 Oxford Street, to Mr. George Wilson, only son of Mr. and Mrs. G. F. Durrant, 727 Herald Street. The wedding will take place August 16.

Cambridge University has appointed as its first woman professor Dr. Dorothy Garrod, an archaeologist.

Linen Frocks Are Popular In England

LONDON—Thousands of women are ordering tapestry linen frocks made by a Nottingham firm, because the Duchess of Gloucester chose one at the British Industries Fair!

The Duchess selected a dress of cream linen with a tapestry design of bouquets of country flowers in red, mauve, blue and yellow. It is a very simple style, with a "V" neck, two turn-back revers, and buttons all the way down the front. The two pockets and short sleeves are bound in plain linen to match the belt.

Now exact replicas are being produced, and, apart from the fact that a member of the Royal Family set the fashion, women are finding the style simple, practical and attractive.

Linen is one of the best materials for summer washing materials. It is also enjoying great popularity in Paris, where many chic variations in style and texture are to be seen.

One charming afternoon dress was of white linen with a full skirt gathered in wide folds to the waist and bordered at the hem by a very thick white wool braid.

Another attractive linen model, made in Paris, and seen here, was a sky-blue linen frock with a widely pleated skirt and a matching jacket appliqued with white linen flowers.

Schlaparelli, too, makes a feature of linen. I saw one suit in four colors. The jacket was in rose-colored linen, the skirt in wine-red, the blouse in a mauvish-rose, while the buttons were in a violet shade. The effect was most harmonious.

GOWN WITH "ARM RESTS"

The latest in evening gowns for the hostess receiving a large number of guests has been designed by students of the Central School of Arts and Crafts.

At their exhibition this dress in coral taffeta was seen. Its plain bodice fitted tightly at the waist, giving a farthingdale effect to a very full overskirt. Two small, stiffened crescent-shaped panels, beneath which the side fullness was pleated, stood out as "arm rests"—a very useful support for the weary hostess after much hand-shaking.

Crinolines show no serious sign of "going out." In an array of varied fabrics, lace, organza, handkerchief lins and washing silks they more than hold their own.

A Paquin mid-season model was in tea-tinted sheer lace of floral design with a little tight bodice, pointing a V front and back against long sleeves cut open at intervals to reveal bare arms. It was most attractive. The wide skirt spread a fanlike hem and bristled with tiny ruffles of lace over a swishing taffeta petticoat.

The Sketch Club of the Island Arts and Crafts Society will meet at 2 Monday afternoon in Beacon Hill Park rose garden.

Holidaying in Victoria with her husband is Mrs. Milton Singer of Kansas City, Missouri, who poses above on the stone steps leading to the conservatory of the Empress Hotel. In Victoria, Mr. and Mrs. Singer are renewing friendship with Mr. and Mrs. Wallace McMillan, Pemberton Road.

—Photo by Associated Screen News.

Mr. and Mrs. Fyfe Smith of Vancouver pause for a few moments in the gardens of the Empress Hotel, where they have been guests this week, having come over for the garden party at Government House. Mrs. Smith is one of western Canada's best known gardeners, and today spoke over a Canadian national hook-up on "The Spirit of the Garden" program.

Social and Personal

Mrs. J. W. Watson and Miss D. Watson of St. Louis, Missouri, are among visitors to Victoria, and are registered for a few days at the Empress Hotel.

Mr. and Mrs. E. J. Hopkins, with their two boys, left this morning for their home in Redwood City, Calif., after spending the last two weeks in Victoria.

Dr. and Mrs. D. B. Ryall of St. George's Hospital, Albert Bay, and Mr. Philip Salmon, who are on a motor trip of the Western States, are expected back this week-end.

Mrs. H. Catterall, who has been visiting friends in Vancouver and her daughter, Miss Laura Catterall, Alta Lake, B.C., has returned to her home, Linden Avenue.

Mr. Arthur S. Minnion, formerly of the Bank of Montreal, and Mr. Arthur Minnion Jr., B.A., B.C.L., arrived in Victoria Monday and will spend a holiday with Mr. and Mrs. Bevan Allen at their summer home at "Cliffside," Shawnigan Lake.

Mr. and Mrs. Terence Todd, the latter formerly Miss Cary Wilgess, who were married in Victoria early this month and who have been on their wedding trip to the Hawaiian Islands, sailed from Honolulu yesterday by S.S. Empress of Japan. They will arrive here next Tuesday and spend several weeks at Pike Lake before leaving for Montreal to make their home.

Mrs. W. Woods and Miss B. Bennallack were joint hostesses at a miscellaneous shower held Wednesday evening at the home of Mrs. M. Crowe, Juno Street, in honor of Miss Isobel McLean, a July bride-elect. Mrs. Crowe presented the bride-to-be with a corsage of sweet peas and baby breath. Many beautiful gifts were displayed on a table, which was centred by a miniature bride. From the ceiling hung a watering can decorated in colored streamers which draped over the table. The room was filled with pastel flowers. An enjoyable evening was spent in games, the prize-winners being Mrs. J. Harper Sr., Miss L. Harper, Mrs. A. Stokly and Mrs. B. Scott. Miss L. Harper gave a few selections on the piano-accompaniment. Dainty refreshments were served. The invited guests were Mrs. M. Crowe, Mrs. D. McLean, Mrs. W. Woods, Mrs. J. Harper, Mrs. B. Scott, Mrs. A. Stokly, Mrs. I. Dallaway, Mrs. L. Howe, Mrs. W. Robinson, Mrs. J. Watt, Mrs. Gagnon, Mrs. Porteous, Mrs. Parlant, Mrs. B. W. Smith, Mrs. J. Stewart, Mrs. A. Stewart Jr., the Misses B. Bennallack, Rae De Marco, Vic Crowe, Sadie Smith, Lil Smith, Mary Crowe, May McBeath, Lil Harper, Sarah Harper, Nancy Stewart, Isobel Stewart, Margaret Stewart, and Isobel McLean.

Mrs. W. S. Yeamans, 3126 Albany Road, was hostess Monday evening to a large number of guests, when she entertained at a cup and saucer shower in honor of Miss Molly Harper, bride-to-be. The guest of honor was the recipient of a beautiful corsage bouquet of roses and gardenias, and the gifts, concealed in a miniature meat store, were presented by Miss Betty Mitchell. A program of games, 500 and bridge was greatly enjoyed, the winners being Mesdames A. Longland, W. McCaghey, F. Stacey and Miss Betty Mitchell. Refreshments were served from tables beautifully decorated in mauve and green flowers with tall green candles set in silver holders. The guests included Mesdames Rindell, J. Harper, A. Osborne, Bourget, H. Hault, S. Rodman, J. S.

Clubwomen's News

The Bible class of Emmanuel Baptist Church entertained at tea in the Sunday school room on Wednesday, in honor of Mrs. Lorber, a valued class member, who will leave shortly for Zeballos. On behalf of the class, Mr. G. Waites presented the guest of honor with a gift.

The W.A. of the Pro-Patria Branch Canadian Legion held a card social Tuesday night in the W.I. Rooms. The prize winners were Mrs. F. Hullin, Mrs. Carter, Mrs. W. Campbell, Mr. Berry, Mrs. McKinnon and Mrs. C. White. There will be another social held on Friday night, July 28, at 8. Five hundred will be played.

Under the auspices of the Langford subdivision of the Catholic Women's League a garden party will be held next Wednesday in the grounds of St. Richard's Church, Langford Lake. A home-cooking stall, fish pond, games and afternoon tea will be special features. For the benefit of Victoria friends a bus will leave Richardson's cigar store, Yates Street, at 2.15, returning from Langford at 5 and 7.

The Vimy W.I. met at the home of Mrs. T. C. Robson, Wednesday afternoon; Mrs. J. N. Harris in the chair. A report from the Craft Cottage committee was presented. It was decided the annual picnic should not be held until after the return of the president, Mrs. E. R. Weismiller. The members arranged to make a quilt to be given the Chinese Friendly Society. Mrs. A. H. Chambers, Saltair, vice-president of the district board, spoke on institute work. Mrs. E. A. Harrison, Koksilah, brought greetings from that institute. A darning contest was held, at which Mrs. T. A. Payne was awarded the prize by the judges, Mrs. James Robson, Koksilah, and Mrs. E. R. Holberg, Ladysmith. A newcomer to the district, Mrs. Ostoroff, was welcomed. She showed some institute work done on linen which had been woven by her grandmother. Tea was served on the veranda by Mrs. T. C. Robson, assisted by Mrs. W. D. Wilkin and Mrs. J. N. Ellingsen.

The Metropolitan United Church W.M.S. held its July meeting at the home of Mr. and Mrs. James H. Fletcher, 1721 Rockland Avenue. Mrs. W. H. Mune, the president, opened the meeting, after which Mrs. H. Sullivan and Mrs. Reginald Harris conducted the service of worship. Dr. William Gibson spoke on the refugee problem, after which the meeting endorsed and commended the resolutions of the Canadian Committee on Refugees and Victims of Political Persecution, and letters addressed to the Prime Minister and Leader of the Opposition. Miss Margaret Hulton of Calgary delighted the guests with her solos: "How Lovely Is the Hand of God," by Raymond Loughborough, and "A Prayer," taken from one of Weber's operas, accompanied at the piano by Miss Helen Moore. Mrs. Muncy thanked the speaker and artist, also Mrs. Fletcher as hostess, at the same time presenting her with a small gift as an expression of the appreciation of the members for her kindness on various occasions. Mrs. W. H. Whitely, social convenor, was in charge of the tea, Mrs. A. E. Whitehouse and Mrs. W. E. Harper pouring. Members of the evening auxiliary assisted in serving.

Candles in Pewter Holders Gave Light at Party

LONDON—Five-month-old Susan Jean, daughter of Lord and Lady Cecil Douglas, celebrated her christening party this month by having a spoonful of champagne in her bottle of orange juice. She seemed to enjoy it, as she never once cried.

Her godparents included her uncle, the Marquis of Queensberry, and her aunt, Lady Dorothy Palmer.

Mrs. Reginald Coke organized a new kind of party in a large studio overlooking Hyde Park. It was a "cocktail chantant" party, and instead of leaving her guests to drink and conversation, Mrs. Coke arranged for Miss Jean Hammond to sing for them.

Among the guests were the Brazilian ambassador and his wife, Lady Oppenheim, Mrs. Claude Beddington and Sir Kenneth and Lady Barnes.

The Duchess of Kent received an unusual "curtsey" when she received Mme. Catina Paxinou, leading lady of the company of

The Theatre Royal of Greece, at a reception here.

When Mme. Paxinou was presented to Her Royal Highness she fell on both knees and remained kneeling throughout her conversation with the Duchess.

At Lady Moyne's supper-dance for her daughter Grania and younger son, Murtoth, the guests were served by maids dressed in Tudor costumes.

Part of Lady Moyne's house is a reproduction of an Elizabethan home and the guests sat down to supper in an oak-paneled hall at long trestle tables—the only lights being those of candles set in pewter holders.

The old-fashioned cotillion was seen again at a ball given by Lord and Lady Londonderry at Londonderry House, at which the Duchess of Kent was one of the guests.

At first the young people needed a little encouragement to get going but they soon entered into the spirit of the measure. Later on Lord Londonderry led the Lambeth Walk, which went with a swing.

One of the most expensive parties has just been given at the exclusive Hurlingham Club for an 18-year-old French girl, Mile. Lucile Fagalde.

Mile. Fagalde is the daughter of

General Fagalde, commissioner of the 16th Military Region of France.

The dance, for which a special ballroom had been built, was given by her aunt, Mrs. R. W. Rensselaer, an American society woman. Exotic flowers were flown from abroad, and footmen in livery patrolled the lighted grounds.

KELOWNA MARRIAGE

KELOWNA (CP)—Joseph Quesnel, youngest son of the late Alphonse Quesnel and Mrs. Quesnel of nearby Lumby, was married Tuesday to Gertrude Chapin, daughter of Mr. and Mrs. H. F. Chapin.

Mrs. A. P. Pettipiece, Kelowna, sister of the bride, was matron of honor, while the groom was attended by his brother, Dell. The couple will reside at Wells, B.C.

NU-FEET MEDICATED INSOLES

MAN ALIVE!

I FEEL FIT AS A FIDDLE!

Here's how thousands keep at the top of their form: If you're out-to-keep chockful of "get-up-and-go," avoid the depressing effects of incomplete elimination. Have enough bulk in your diet to keep the food wastes moving promptly. Unfortunately, too many people do not know this simple fact—or, knowing the benefits of bran, they have failed to try it in this delicious form.

For thousands now get added bulk in a most appetizing way. Every morning they eat delicious Kellogg's Bran Flakes, to keep fit! Gently laxative, Kellogg's Bran Flakes with "other parts of wheat" supply health-giving proteins, too! Start eating these crisp, mellow-flavoured flakes tomorrow. Eat them every morning. It's an easy way to help avoid irregularity. And Kellogg's Bran Flakes taste simply grand! Made by Kellogg's in London, Canada.

Every morning, eat delicious Kellogg's Bran Flakes to keep fit—and you should not need to resort to harsh and possibly dangerous drugs. What's more, you'll love their sheer, crunchy goodness. They give a daily taste-drama!

Start tomorrow feeling fit

Danger of War Believed Passed

R. B. Wilson Returns From Convention of General Motors Corporation

Officials of General Motors Corporation, the largest single employer of labor in Germany, expressed the opinion that the danger of war in Europe is rapidly disappearing, at a factory-dealer council meeting at Toronto last week, R. B. Wilson, of Wilson & Cabell, Ltd., said on his return to Victoria yesterday.

The council meeting brought together General Motors officers, including Alfred Sloan Jr., general chairman of the corporation, who presided; Richard H. Grant, vice-president in charge of sales for Canada; R. S. McLaughlin and Mr. Fisher, president and vice-president, respectively, of General Motors of Canada, and 12 delegates representing picked dealers in localities throughout Canada. Feeling was optimistic as to the continuation of peace, and it was pointed out that Great Britain and France were all prepared to resist any hostile nation.

Mr. Wilson said officials were confident that the working man in Germany did not want war, and that it would be impossible for that country to continue a war, if started, for any length of time.

The general opinion of that council was that there would be a very definite improvement in 1940.

Alfred P. Sloan Jr., chairman of General Motors Corporation, presided at the three-day session.

Mr. Wilson traveled both ways by Trans-Canada Airlines, he said, and it is necessary to make bookings in advance.

He thought the General Motors exhibit was the outstanding attraction at the New York World's Fair, adding there were usually between 5,000 and 8,000 persons waiting to gain admission. The corporation, he mentioned, is figuring on a great future for Diesel operations, ranging from trains to small-package units.

25 Years Ago

JULY 21, 1914
(From the Times Files)

Esquimalt is calling for tenders for the laying of sewer pipe in the village. This is part of the plan for improvements of public works all over the city.

A petition was handed to the City Council yesterday urging

the necessity of reopening the Rock Bay bridge to traffic. It was signed by a number of prominent business men. Consequently the council have decided to repair the structure at a cost of \$6,000.

The tent colony at Hollywood Crescent is doomed. The city assessor pointed out the fire hazard and unsanitary condition of the colony, and it was decided that no more permits were to be issued. Tents with stoves in them were particularly dangerous, the report said.

Alderman H. Cuthbert resigned from the city council today. The city council received the resignation last evening and the letter was accepted.

Robert Dollar, head of the steamship company, which bears his name, is in the city on business connected with the export of lumber from Vancouver Island.

B.C. MARES WIN AT SAN FRANCISCO

Animals From Province Make Clean Sweep In Exhibits

A clean sweep at the San Francisco fair was made by mares sent down for competition by the federal and provincial governments, according to word received today by Hon. K. C. MacDonald, Minister of Agriculture, from W. H. Hicks, superintendent of Agassiz Experimental Farm, who is in charge of the exhibit.

The animals went from Agassiz and the provincial government's Colony Farm at Essondale. The mares won six firsts, five seconds and all the championships, Mr. Hicks reported.

Agassiz Farm's two-year-old Miss Modesty won the grand championship for mares and the championship was taken by Silverwood of the Colony Farm. B.C. mares won the first four

"I think it is an excellent showing," Dr. MacDonald said.

The B.C. government paid the entry fees and freight charges for the horses and the Dominion sent the attendants.

Pickets Dispersed

BOSTON (AP) — Thirty-three self-described "Hebrew scouts," who later were dispersed by police, picketed the British consulate here yesterday with placards, some of which charged Prime Minister Chamberlain of Great Britain had "betrayed" Palestine, the Jewish homeland.

Japanese Pastor at Cumberland Inducted

On Thursday evening at the Cumberland Japanese Mission of the United Church, Rev. Yosio Ono, B.A., a recent graduate of U.B.C. and Union College, was inducted to the ministry. Those taking part in the service were Rev. Dr. S. S. Osterhout, president of the conference; Rev. Jos. Herdman of Cumberland; Rev. Peter Henderson of Courtenay, and Rev. Bryce H. Wallace of Victoria. The field which the newly-inducted pastor will cover will be an extensive one, including all points north of Nanaimo, and the west coast of Vancouver Island.

HOROSCOPE

Saturday, July 22, 1939

Astrologers read this as a mixed day in planetary influence, but adverse aspects appear to dominate. Effort should be made to overcome any sense of the futility of human effort which may prevail.

Women today are under threatening portents that seem to indicate depression and disappointment. Many week-end plans will be upset, but rest, rather than activity, will be beneficial.

The stars frown on romance today, but there is a sign that suggests susceptibility on the part of young men. It is a date for taking notice and deferring suit. Envy of those enjoying the

abundant life may inspire trouble, especially at western harbors.

Among the European dictators Mussolini is to be most fortunate. His horoscope indicates rare good luck and unusual foresight. An unexpected incident, however, will cause him embarrassment.

Hitler, who is said to be a student of astrology, has read in his horoscope evil portents for 1940 when Saturn will be stationary on his sun and Mars will be in square to his Nadir.

The German chancellor foresees the climax of his career and so urges rashly the completion of plans to extend his power. The stars indicate that he has desired to avoid war as long as possible. Prognostications of storms damaging to exposition buildings

In New York and San Francisco is made by astrologers. High winds and earthquakes are threatened.

Persons whose birthdate it is have the augury of a year of fair success. Employees may expect promotion with rise of salary. Women will profit through relatives.

Children born on this day probably will be active in mind, but inclined to like ease of body. They will be clever and original, but may not fulfill their high promise of success unless constantly goaded.

The Soviet army has 32 aviation schools and engineering schools training air force personnel.

Radials Three Goals in Lead

Sports Mirror

By PETE SALLAWAY

FIGHTING FOX was a long time getting around to it, but he may yet demonstrate that he has some of the qualities of his full brother, the famous Gallant Fox, which won \$328,165 in his three-year-old year.

Both are sons of Sir Gallahad Third and Marguerite, but until he came down in front in the \$50,000 added Massachusetts Handicap on a sloppy Suffolk Downs track the only thing about Fighting Fox which reminded racegoers of Gallant Fox was that he was so different.

Gallant Fox could run all day, but couldn't do his best until he was looked in the eye.

Right up until July 8, Fighting Fox was a spittin' image of a sprinter, and there still is reason to suspect that he is strictly a front runner.

Certainly he is an enigma. The unpredictable four-year-old broke a record at Aqueduct in winning the Carter Handicap, June 17.

Then, under much lighter weight, he ran a bad race in the Brooklyn Handicap a week later.

Then, July 8, in the Fleetwing Handicap at Empire City he was the Fighting Fox of the Carter... smashing another track record.

Moving in the stretch and wrestling the lead from Mrs. W. Plunkett Stewart's Early Delivery, the Belair Stud horse won off by himself in 1:07 2/5, which shaved the old mark for about six furlongs.

The mark was established by Old Koenig in 1918 and tied by Wise Counsellor in 1924 and again by The Fighter a year ago.

Whatever else may be said of Fighting Fox, it must be set down that he is a versatile and difficult to figure fellow. In the Carter he took the track and ran his opposition dizzy. In the Brooklyn he just didn't run at all. In the Fleetwing he obeyed Jimmy Stout perfectly, stayed close enough to the early pace and moved up gradually when the jockey called on him to do his best.

In the opinion of competent critics, the Fighting Fox of the Carter would have trimmed any horse in the land, including his magnificent stablemate, Johnstown.

Yet the Fighting Fox of the Brooklyn couldn't even get in the money. Then with more weight in the Fleetwing he ran like a champion and came back with the greatest triumph of his career in the Massachusetts Handicap, where she showed that on occasion he can go a mile and an eighth and run in mud.

Fighting Fox ran as he likes to run in the Massachusetts, in which Stout got him out in front rounding the first turn.

What made it profitable for the comparative few who stuck with Fighting Fox in Boston was the absence of New Yorkers who stayed with him and backed him down to favoritism at Empire City.

That and the presence of the lightly-weighted and supposedly mud-running fool, Chalcedon, caused the mutuels to pay \$31, \$15.40 and \$11.60 for \$2 tickets across the board on banker William Woodward's riddle.

But few of those whom Fighting Fox broke in the Kentucky Derby last year got well in the Massachusetts.

Although the thoroughbred has disappointed Jim Fitzsimmons many times, Fighting Fox is said to be the old trainer's favorite animal.

But that is true only when Fighting Fox wins.

Sunny Jim Fitzsimmons is not unlike any other horseman or horse player.

WINS LIVERPOOL CUP

LIVERPOOL, Eng. (CP) — R. Robson's Sansalvo, a five-year-old colt by Jacobo out of La Rambla, today won the Liverpool summer cup at one mile three furlongs.

Quoted at 8 to 19 in the betting, San Salvo finished two lengths in front of Becardi with Flying Star two lengths further back in third place. Becardi was held at 100 to 7 and Flying Star at 100 to 30 in the field of 10.

B.C. Football Champions Defeat Edmonton 5 to 2 In Dominion Playdowns

EDMONTON (CP)—Three goals up and one game to go, Vancouver Radials appeared today to be well on the way toward hurdling the first barrier in their attempt to keep the Dominion Football Association championship in British Columbia.

Radials, surprise winners in the coast province, beat Edmonton Civics, Alberta representatives, 5 to 2, here last night in the first game of the total-goals series. Second game will be played tomorrow with the winner slated to meet Winnipeg Irish in the western Canada final. Vancouver North Shore won the title last year.

George Smith, Hap Smith, Jack Johnson, outside right, John McKay, inside right, and Hugh Greer, inside left, booted goals for Radials. Edmonton scorers were Bob Graham, inside right, and Bob Haxby, outside right.

Hughie Greer opened the scoring for Vancouver when he headed the ball into the losers' cage after receiving a goalmouth headed pass from Hap Smith after 20 minutes of play. Just a few seconds after this Bobby Graham missed a good chance to even the game up but lifted the ball over the bar from close-in.

Six minutes later Radials were awarded with a gift marker when Jack Johnson centred the ball in front of the Edmonton net and Jack Davidson in trying to clear headed the ball into his own net.

SECOND HALF

At the start of the last half Radials started out at a fast clip and McKay increased their lead with a grounder that Ness in the Edmonton net lost sight of.

Civics broke into the scoring column eight minutes later on a penalty shot. Tommy McKibbin handled the ball in his own penalty area and Referee Hunter ordered a penalty shot that Bobby Graham converted on hard waist high drive to the corner that Goalie Bill Watson had no chance to save.

A few minutes later Vancouver was awarded a penalty shot also when Davidson handled the ball in his own penalty area and George Smith scored with a ground kick to right corner making the score 4 to 1. Haxby scored the second Civic goal through a maze of players on a pass from Bobby Graham. Hap Smith completed the scoring of the game picking up his own rebound after Ness failed to hold the ball steady on his first low drive.

Blair Tops Marksman

Vancouver Shot Has 104 Out of 105 in Governor's Match; Mrs. Hethey in Final

BLAIR RANGE, North Vancouver (CP)—Jimmy Blair, the Vancouver Seaforth Highlanders crack 24-year-old sharpshooter, won the qualifying stage of the Lieutenant-Governor's match—classic of the British Columbia Rifle Association championships now being held here.

His victory came after a hard battle against C.S.M. Len Willoughby, defending champion and a member of Blair's regiment.

Jimmy, who won the Westminster match on Wednesday, carded a remarkable total of 20 bulls and one inner for 104 out of a possible 105 to finish one point up on Willoughby and three other shots who fired 103's.

Jimmy's father, Lieut. Colonel B. M. Blair, of the Seaforth Highlanders, won the same event for the first time 27 years ago.

Shooting conditions were nearly perfect yesterday. Sixteen marksman turned in scores of 100 or better.

The top 36 automatically qualified for the final of the Lieutenant-Governor's match, which will be shot over ranges of 300, 600 and 900 yards to wind up the tournament tomorrow. It took 97 or better to get into the final round.

Although four men tied for second place, it was defending champion Len Willoughby who provided the excitement for spectators and the greatest competition for Blair.

TWO POSSIBLES

He fired two possibles over the first two ranges of 200 and 300 yards and moved back to the final range of 900 yards tied with S.M. W. H. Wood, Princess Pats, Victoria, one point ahead of the field.

Wood slipped badly with a 31, but Willoughby, after scoring an

Baseball Games Here Tomorrow

Victoria and Port Angeles Will Hook-up In Pair of Exhibitions

As evenly matched as two baseball teams could be, Port Angeles and Victoria clubs will collide at the Athletic Park tomorrow in what should be another keen international baseball series. Afternoon game starts at 2:30 and the evening affair at 6.

During the last two seasons these two diamond aggregations have met six times and the fact that they have come out of the scrambles all even with three games apiece indicates the little difference between them.

Two Victoria twirlers who have beaten Port Angeles before will go to the mound for tomorrow's games. Ray Maitland, right-hander, who heaved Victoria to a 7 to 2 win in the second game on the Dominion Day card, will do the heavy work in the matinee attraction. Lloyd Cann, who sparked Victoria to a win in the final game on the July 1 program, will operate on the hillcock in the night fixture.

Eric Erickson, veteran mound ace, who has won three of his four games against Victoria, will do the heaving for Port Angeles in the afternoon tilt.

GAME TONIGHT

Tonight at Athletic Park, Athletics and Pitzer and Nex will meet in a Rithet Cup fixture at 6:15. In their last start this week Athletics bowed to defeat at hands of the Eagles and the game will attempt to add another defeat to the pace-setters' record tonight. Fred Acres will pitch for the P and N's and Sonny Walker will probably hurl for A's.

SECOND DIVISION

A sixth-inning four-run attack gave Eagles of second division baseball a 6 to 5 win over Oak Bay at Oak Bay Park last night in a Humphries Cup game. The Eagles are following close on the heels of the leading Navy.

Brown Bombers dropped back into the cellar spot after suffering a 9 to 6 setback at the hands of Cedar Hill Athletics. On Sunday Brown Bombers will travel up-Island to oppose the Mayo Lumber nine in two games at 1:30 and 5. Cedar Hill and Pitzer and Nex will play a league game Sunday at Reynolds Road at 2:30.

TOUGH ON MAN WITH GAFF TOO—Man with gaff is handy at crucial moment as pair boat 40-pound channel bass in slough off Ocracoke Island, N.C.

Seattle Sets Record

16,750 See League-leading Rainiers Win in 12th From Oakland

A crowd of 16,750 paying customers, a record in Seattle baseball history, watched their home town Rainiers cling to a game and a half lead in the Coast League race by nosing out Oakland in the 12th inning last night.

The Rainiers beat the sixth-place Oaks, 3 to 2, as catcher Gilly Campbell cracked a line drive into right field to score shortstop Alan Strange in the third extra frame.

The big feature at the Seattle Park was Al Schacht, the major league comedian, and thousands were turned away before game time.

San Francisco's Seals, meantime, climbed back into their usual third-place berth by beating San Diego, 7 to 3, at San Francisco, as Sacramento was dropping a 4 to 2 decision to Los Angeles at the Angels' park.

Win Ballou, the Seals' veteran curve-ball artist, kept the padres under control throughout, giving up only seven hits. It was the first start for Ballou this season. He is ordinarily used in a relief capacity only.

Back on the mound after a three-week layoff because of injury, Julio Bonetti, the league's leading pitcher, twirled his 13th victory against two defeats as the Angels stopped the rampant solons.

At Portland, manager Bill Sweeney won a ball game for his last-place Beavers, singling with two out in the ninth to score Eddie Wilson with the run that gave them an 8 to 7 win over Hollywood.

MAJOR LEAGUES

Wonder what kind of raw meat Jimmy Dykes is feeding those Chicago White Sox of his? The Chicagoans have won 15 of their last 19 games, have risen from fifth place to a challenging position in what is left of the American League race, and are just 3 1/2 games back of the runner-up Boston Red Sox.

Their second consecutive white-washing victory came yesterday and the Red Sox were the victims by 4 to 0 as Thornton Lee turned in a nine-hit job that was backed up by four double plays. Included in the Chicago upswing since the first of the month is a sweep of the St. Louis series, two out of three over Cleveland, a sweep of three games with Detroit, a lost series to Philadelphia, two straight victories over Washington and the four-of-five triumph over the Red Sox.

The New York Yankees took No. 8 in a row from St. Louis Browns by 2 to 1 yesterday. Red Ruffings four-hit pitching, for his 13th win of the year, was impressive while the Yanks got 13 hits.

Bobby Estalella helped Washington to an 8 to 7 victory and a sweep of the series over Detroit Tigers when he banged a home run in the eighth with a mate aboard.

In the other American League tussle, Mel Harder pitched himself out of a lot of trouble before he came up with a 3 to 2 decision over the Philadelphia Athletics.

The National League had only two games to offer.

Pittsburgh—Pirates jumped from sixth to fourth place through their 8 to 4 victory over the Giants. The defeat shoved

Colored Driver Here Tomorrow

Rajo Jack, Flashy Los Angeles Car Racer, to Appear at Langford

Langford Speedway automobile racing officials announced today the services of Rajo Jack, Los Angeles, had been secured for tomorrow evening's meet in addition to Seattle drivers.

Rajo, the only Negro major car driver on the coast, and rated as the most colorful pilot in the eastern United States, should provide many a thrill for speed fans.

Although it will be his first appearance on the local hard-surfaced oval, he should give the clean-sweeping Swede Linskog, Seattle, No. 1 pilot of the northwest, a good run for his money. Linskog has been coping every-thing that has come his way at the speedway this season. The colored boy will be driving a 255 Miller.

Jimmy Symes and Lou McMurtry, both of Seattle, will also be seen in action. Symes, who turned in a grand performance last Saturday, will again be driving the Little No. 27 car. McMurtry, who also knows his business as a racing driver, will be at the wheel of the No. 62 car.

Nine island pilots will be ready for the American boys making a total of 13 cars and drivers competing. They will include Bert Sutton, Digger Caldwell, Jerry Ventrigh, Buddy Green, Jimmy Wells, Jimmy Lair, Sid Holder, Joe Moore and Fred Carson. Carson hails from Duncan, while the others are Victorians.

During the intermission period a display of new cars will be presented and 10 pretty mannequins will take part in a style show. The program will get under way at 7:45 with the time trials to be followed by the various speed competitions.

BOXING

New York — Izzy Mannazzo, 140's, New York, outpointed Andre Jessorun, 149, New York (10).

Baltimore — Louis (Kid) Cocco, 147, New Haven, Conn., outpointed Steve Mamakos, 152 1/2, Washington, D. C. (10).

Ontario Team Favorite For Willingdon Cup Golf

Jack Crawford Gains Tennis Semifinals

BROOKLINE, Mass. (AP)—Jack Crawford, Australian veteran, dipped into his storehouse of experience yesterday when his legs grew weary and came out with a few tennis tricks that enabled him to gain the semifinals of the Longwood Bowl tourney. He beat Gardner Mulloy of Coral Gables, Fla., 7-5, 6-1, 3-6, 8-6.

The victory moved Crawford against Gene Mako, United States Davis Cup doubles player. They will mark time until tomorrow, for the only men's singles match on today's card was the semifinal between Adrian Quist of Australia and Bobby Low of Los Angeles.

Alf Marconini In Last Four

Victoria Bowler Advances In Champion of Champions Play at Vancouver

VANCOUVER (CP)—Though checked earlier by a day of rain, outstanding events in the British Columbia Lawn Bowling Association's annual tournament were well advanced today with at least one trophy—the A. E. Beck novice singles—scheduled to be decided tonight.

The Chambers (champion of champions) singles, the Oakland doubles and the Nelson rinks events, reached the semifinal stages.

Tonight three finals will be played on the Terminal greens. Jimmy Richmond and A. I. Stoddard, both of the Terminal Club, will skip their rinks to decide possession of the Francis Bowser trophy, premier open rink silverware, won last year by Joe Barton's Nanaimo rink. Charlie Sweetman will lead his Berkeley quartette against Walter Fowler's Burnaby four for the John Jenkinson trophy, which was captured last year by Bill Young of Oakland, so that the Californians are really defending the "mug."

Two of the younger members of the bowling fraternity, in Lawrence Whent of South Vancouver and J. Logan of Ioco, will meet in the novice singles final for the A. E. Beck silverware.

HEAVY SCHEDULE

Yesterday no less than 220 games were played in the Seaton singles, 147 in the A section and 63 in the B division, and the event was narrowed down to the six-teams in both sections. Outstanding games were being cleared up today, an dthe final should be reached by tonight.

The international game between Canada and the United States rinks for the Robert Gray trophy, won last year by the United States representatives, was being played on the Vancouver green this afternoon.

Semifinals and finals of the Oakland doubles and Nelson rinks are carded for 6 o'clock on the Terminal greens, and the Chambers (champion of champions) singles semifinals will also be run off tonight. In the latter event Bert McCully of Dunbar plays Alf Marconini of Victoria in one bracket and J. Struthers of Grandview opposes W. Easton of Ioco in the other.

Stan Leonard Wins Tourney

Vancouver Pro Scores Seven Under Par 133 in Tacoma Jubilee Golf

TACOMA (AP)—Laying down a glittering array of birdies and pars, Stan Leonard, dapper Vancouver, B.C., professional, shot 36 holes in seven under par yesterday to shove the Pacific Northwest's best amateurs and pros into the background and win the Washington golden jubilee open golf tournament over the Allenmore course.

Putting a morning round of 68 with a five under par 65 in the afternoon, the Canadian stylist led the field by four strokes at 133. With Emery Zimmerman, Portland professional and a tournament favorite at his heels, Leonard shot the final nine in 31 strokes, making four birdies. He holed out a 30-yard approach shot on the 34th hole.

Zimmerman coupled a 70 with his morning round of 67 to take second place with 137 strokes.

CRICKET MATCHES BILLED TOMORROW

A pair of league matches are carded tomorrow for teams in the Victoria and District Cricket Association. Last year's champion Five C's will oppose Cowichan at Cowichan, and University Incogs, who are right on the heels of the leading Seattle club, will taken on Albions at the Mount Tolmie School's grounds. Matches start at 2:30.

B.C. Quartette Makes Big Bid In East Monday

Ken Lawson and Ted Colgate On Squad; National Tourney Tuesday

MONTREAL (CP)—In the clutch where a good explosion from the sand or a 12-foot putt is needed to stay in the running for a championship, experience is a great help in the unpredictable game of golf. It's experience among its members that makes Ontario's team a favorite for the Willingdon Cup matches Monday.

When the first ball is hit off the first tee at the nearby Mount Bruno course, opening Canada's amateur golf week, there'll be eight strong teams striving for the interprovincial team championship Ontario won in a thrilling six-hole playoff against Quebec at London, Ont., last year.

None of the other teams has the experience of Ontario's quartette. Sandy Somerville, the London master who will seek his seventh title in the Canadian amateur championship opening Tuesday, has played on 10 Ontario teams and on all six which won the cup for the province.

With Sandy will be Phil Farley of Toronto, who has been on five Ontario teams and two from Quebec when he lived in Montreal; Jack Nash of London, a five-time representative, and Gordon Taylor Jr. of Toronto who has played on three Ontario teams. Taylor is the provincial champion.

British Columbia again has the veteran Ken Black as its leader and his presence alone is sufficient to assure B.C. of powerful representation.

Black was a member of the successful coast teams of 1933, 1934 and 1936 and of the quartette which led last year only to be disqualified when one of its members played two shots out of bounds. He was low man in the 1933 matches and tied for low in 1934 and 1938. That is the record that stamps him as one of the strongest Canadian threats for the amateur title being defended by Ted Adams of Chilliwack, Mo.

Ken Lawson of Victoria is the only other British Columbia golfer with more than one interprovincial match behind him. He played in 1935 and 1937. The Canadian amateur champion of 1932, Gordon B. Taylor of Montreal, and this year's provincial champion, Roland Brault of Cowansville head Quebec's team. Taylor captained the province's cup teams the last two years.

JUNIORS PERFORM

Two western juniors will play with their provinces' cup teams and participate in the 36-hole medal play tournament conducted at the same time for the national junior championship. Howard Bennett of Winnipeg is Manitoba's junior champion for the second year and will try to take the title Jimmy Hogan won for Alberta last year. Hogan is on the provincial team again. Mickey Pyke of North Battleford will represent Saskatchewan in the junior and also play with the team.

Hopi Idols and Altars

In the year 1888 Navaho Indians were passing near an old Hopi pueblo. The pueblo, as they knew, had been deserted for more than a century. Suddenly they found a small cave and entered it. Inside they discovered several little statues which had been used as Hopi idols.

Indian before Blue Flute altar in the Middle Mesa.

The Navahos knew that white traders paid money for such things so they took them to the home of Thomas Kearn, eight miles away. Kearn bought them, and no doubt felt he had obtained treasures of some importance.

News of the event traveled to a nearby Hopi village, and before long a band of Hopis came trooping to Kearn's home. They were angry. The idols had been near a deserted Pueblo, but these Indians had been in the custom of going to the cave to pray!

Being a man both kind and wise, Kearn gave the images to them. He knew they would mean a great deal to the tribe.

We are told the Hopis treated the idols with honor as they carried them away. All along the route back to the cave, they made a pathway by dropping sacred meal.

The Hopi Indians used to have idols in every home, but this is true no longer. Most of the household images, have been sold to tourists and traders, or have been hidden away.

Certain very holy images are kept in secret places such as caves. Some of these are of stone, and are believed to date back hundreds of years.

There is, for example, the shrine of "Talatumsit," which means the Elder Sister of the Dawn, in other words the planet Venus. This shrine is an opening which was cut in rock. When not in use, the doorway is covered by a flat stone slab, and is sealed with clay.

Once in four years, the Hopi people open the shrine. They do so on a November day, and the image of the Elder Sister of the Dawn is carried to the highest point in the region. It is made of wood, and when it is carried out it is wrapped in a white blanket. The people make offerings to the idol, and then it is taken back to the shrine.

The Hopis have altars on which they place images. One of these is known as the Blue Flute altar. It is loaded with many objects, including prayer sticks, corn husks, a gourd and ears of corn.

The far-famed snake dance of the Hopi tribe plays a part in their religion. In this dance, men carry snakes in their hands. Since some of the snakes are rattlers, people wonder how the dancers can escape without being killed.

A few years ago a Hopi who had turned Christian told what he claimed was the secret. He said the rattlers were made to keep biting such objects as animal hides. This was done, he said, in a secret place, and caused the snakes to lose their supply of poison before the dancing started.

Modern Etiquette

By ROBERTA LEE

1. Should the silver for serving be placed beside the dishes or in them?
2. Should iced coffee be served in a cup?
3. May paper napkins be used for a very informal meal served out-of-doors?
4. In setting a table, where should one place the water glass?
5. Is it polite to talk about sickness or accidents at the table?

What would you do if—

- (a) Feel that you must sit to carve, even if it isn't convenient?
- (b) Stand to carve?

ANSWERS

1. Beside them.
2. In a glass.
3. Yes.
4. At the tip of the knife.
5. No.

IVORY LEAGUE

WHAT ARE FOUR SOURCES OF IVORY?

ANSWER: From tusks of the elephant, walrus, hippopotamus and Narwhal whale. Elephants furnish the bulk of the world's ivory.

DEAR MISS DIX—Should a girl refuse to marry a man because he is homey? A very fine gentleman wants to marry me and he has all the qualities that I admire. He is intelligent, kind and considerate, and would be a good provider, but I am hesitating because he is not good-looking. What about it? READER.

Answer: Husbands are purely a matter of taste and every woman is entitled to gratify her own preference in one. If you are such a lover of masculine beauty as you indicate, you certainly should pick out a man who is easy on the eyes and whom you will find it a pleasure to look at for the next 30 or 40 years.

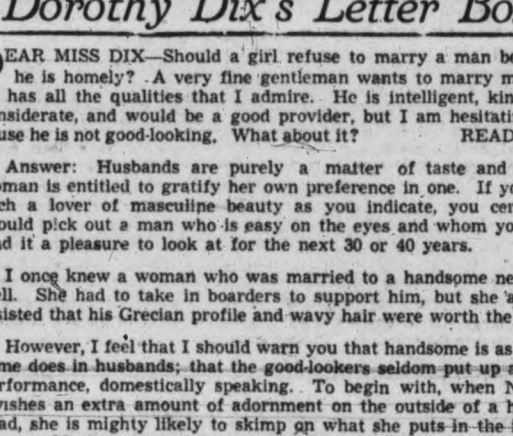

I once knew a woman who was married to a handsome ne'er-do-well. She had to take in boarders to support him, but she always insisted that his Grecian profile and wavy hair were worth the price.

However, I feel that I should warn you that handsome is as handsome does in husbands; that the good-looking seldom put up a good performance, domestically speaking. To begin with, when Nature lavishes an extra amount of adornment on the outside of a human head, she is mighty likely to skimp on what she puts in the inside. The good-looking among men are even more likely to be beautiful but dumb than are women. Look about you and you will observe that the men who are tops and doing big things in the world have seldom any pulchritude to boast of, while most of the pretty boys are drawing soft drinks in drug stores. The cinema is about the only business where soulful eyes and regular features count for a man.

Then generally good looks go literally, as well as figuratively, to a man's head. He simply can't stand it. A vain man who poses and postures and smirks at himself in every mirror is something to turn the stoutest stomach. As a husband he is highly undesirable, because he will expect his wife to be forever telling him how handsome he is. He will monopolize all the clothes money in the budget. Worst of all, she will have to go through life hearing people wonder what made that perfectly splendid-looking man marry that little drab woman. DOROTHY DIX.

CANADIAN GOLF DRAW ANNOUNCED

Lawson and Colgate Will Meet K. Ward and Allan Boes in National Meet.

MONTREAL (CP)—Defending champion Ted Adams of Chilli-cothe, Mo., was pitted against Herb Pickard of Winnipeg in the Canadian amateur golf championship draw announced here today by officials of the Royal Canadian Golf Association.

Fourteen preliminary matches will be played Monday over the Mount Bruno course near here, and on the following day the heavy firing will start as favorites take the field for the title won by Adams last year at London, Ont.

Also due for a Tuesday start with Adams is C. Ross (Sandy) Somerville of London, finalist to Adams last year and long one of the best of Canada's amateur golfers. Somerville was drawn against Joe Atkinson of Royal Montreal in his opening match.

Ken Black of Vancouver, always regarded as a threat in the amateur championship play, was stacked against Tommy Riddell of Toronto; Ken Lawson of Victoria against K. Ward of Montreal; Ted Colgate of Victoria against Allan Boes of Winnipeg; and Jack Fraser of Vancouver against R. Babcock of Halifax.

Black, Lawson, Colgate and Fraser are the regulars on British Columbia's Willingdon team, while Boes is a Manitoba representative.

FAIR ART-CLASSES WIDE IN APPEAL

Royal Visit Photographs Expected To Swell Entry

The art department at the annual Fall Fair of the B.C. Agricultural Association covers a comprehensive field of artistic expression, there being classes for professionals, adult amateurs, open classes, special boys' and girls' classes, and also classes for handicraft and photography.

With cash prizes aggregating \$466, a large list of entries is expected in this department. There are classes for oil colors, water colors, drawings—commercial art, wood carving, fretwork, inlay, hammered metal, leatherwork, models, pottery and photography. In all there are 165 classes in offering \$277 in first prizes, \$160 in second prizes and \$115 in third prizes.

The photographic department, which has grown rapidly in the last few years, is expected to attract an even greater number of entries, owing to the large number of photographs taken during the Royal Visit to Victoria. A. H. Dobson has been placed in charge of this section.

Hear Harold Winch, M.P.P., Monday, July 24, 8 p.m., Chamber of Commerce.

TOWN TOPICS

The regular meeting of the Victoria Short Wave Club will be held tomorrow evening at 8 in the clubhouse, 2500 Foul Bay Road.

Rev. Don Falkenberg will hold a special meeting on Saturday evening at 8, in the Christian Missionary Alliance Tabernacle, Yates Street. His subject will be "Wave of Crime on This Continent," illustrated by pictures.

When he pleaded guilty in the City Police Court this morning to a charge of marketing potatoes as a wholesaler without a license from the Natural Products Marketing Board, Lee So was granted suspended sentence, and fined \$2.50 interpreter's costs.

George Galley, 644 Speed Avenue, suffered minor bruises which required treatment at the Jubilee Hospital, when he was involved in a collision with a car while cycling along Douglas Street yesterday afternoon. A police report said the cyclist and a truck driven by Ralph L. McDonald collided at the intersection of Speed Avenue.

Three special prizes are being presented by the Vancouver Island Pipers' Society for competition among amateur gentlemen pipers at the Victoria Highland Games on July 29. The competition will be for "Old Highland Airs," with the object of encouraging and preserving what is perhaps the oldest form of highland bagpipe music.

The recent contest sponsored by the Canadian Daily Newspaper Association has been adjudicated and two Victoria residents are placed among the winners. Frank W. Taylor, 41 Wellington Avenue, and Mrs. C. Whitaker, 154 Gorge Road West, will each receive \$5 for their answers to the questionnaire on "What do you find most useful and interesting in your daily newspaper?"

Arrangements have been completed for the mystery picnic of the British Imperial Comrades' Association. Members and friends are asked to assemble at the clubrooms, 717 Courtney Street, at 10 Sunday morning, July 30. Buses will leave as soon as loaded. Private cars will follow. Imperials' widows and families are invited. Members unable to participate for financial reasons are requested to contact secretary, E. J. Browning, 1011 Redfern Street, or telephone E mpire-6265.

Young Boy Suffers Loss of 3 Fingers

Percy Byatt, 195 Olive Street, aged 10 years, suffered the loss of three fingers as the result of an accident while playing with some children in Ross Bay Cemetery yesterday afternoon.

City police said a headstone fell on the boy's hand and crushed three fingers. The lad was taken to the Jubilee Hospital, where it was found necessary to amputate the fingers.

RODE SAME BIKE FOR FORTY YEARS

Mrs. Edith Cullum of Victoria Rode at 80 Years of Age

What probably stands as a record for long time use of one bicycle has been established by Mrs. Edith Cullum of 1149 Balmoral Road, who rode the same machine for 43 years and only had a few minor repairs during all that time.

In 1896 Thomas Plimley sold a bicycle to Mrs. Cullum. She used it every day and traveled all over lower Vancouver Island, making 30 and 40-mile trips on many occasions. She rode in every kind of weather, sometimes carrying an umbrella when it rained.

Repairs were few. Mrs. Cullum used to take good care of her only means of transportation, and not until she started to lend her wheel to friends did it require any major repairs. What few repairs were needed when she was riding she made herself.

COASTING DANGEROUS

Safety rules were part of her code. Coasting was dangerous, and to take your hand off the bars was just asking for trouble. Never in all her years of riding did Mrs. Cullum wear glasses. She started riding in her 40s and never gave it up until she was 81. The only reason she gave up riding was because it was impossible to get parts for her cherished model as it was a very unusual one and was especially made by a bike builder in Vancouver.

Now almost 88, Mrs. Cullum is in excellent health and is good for many more rides, but she says that she would rather remain indoors and watch the younger people ride. She is a good mechanic and also prides herself on her carpentry.

Mrs. Alfred Watt Sails for Canada

LIVERPOOL (CP)—Mrs. Alfred Watt, formerly of Victoria, president of the Associated Country Women of the World, sailed today for Canada in the liner Montclair.

Mrs. Watt will visit Ottawa the first week in August for private business with the government and will then go to Toronto, where she will be guest of honor at the Canadian National Exhibition during the last week in August. She will attend the Women's Institute meeting at Edmonton the first week in October.

A native of Collingwood, Ont., Mrs. Watt founded the Women's Institutes of England and Wales in 1915 and later started branches of the movement in Canada. On May 30 she opened the triennial conference of the Associated Country Women of the World at London.

Mrs. Watt hopes to observe impressions of the Royal Tour in the rural districts in Canada.

OBITUARY

SARGENT—Funeral services for Mrs. Mary Jane Sargent were held in McCall Bros' Funeral Home yesterday afternoon. Rev. R. M. Thompson officiated. Pallbearers were: Dr. R. Sargent, H. W. Biggin, N. W. Couzner and E. R. Owens. Burial was at Royal Oak.

PEARSON—Many friends attended the funeral yesterday of Mrs. Evaline Pearson, held from the Thomson Funeral Home. Dr. E. E. Burrill officiated. The pallbearers were: E. D. S. Durrant, E. C. Head, W. C. Ellis, J. W. Rawlinson, G. M. Brown and J. Elrick. Cremation was at Royal Oak.

SMITH—The funeral of Ivy Georgina Rose Smith will be held from the family residence, 3030 Quadra Street, tomorrow afternoon at 2. Rev. L. A. Wilcox will conduct the service and burial will be at Colwood. Flowers sent to McCall Bros' Funeral Home will be taken to the family residence for the funeral.

HUTCHINSON—The death occurred in the Royal Jubilee Hospital yesterday, after a long illness, of John Hutchinson, aged 76 years. Mr. Hutchinson was a native of England and had lived in Victoria for many years. His home was at 742 Johnson Street. He is survived by a brother and a sister in Ireland. The funeral will take place from the Thomson Funeral Home tomorrow afternoon at 3.30. Rev. P. C. Hayman will officiate and burial will be in Ross Bay Cemetery.

PARK—The body of John Robertson Park, who died in Seattle on Wednesday, will be brought to Victoria for burial tomorrow afternoon. Mr. Park, formerly of Hope, B.C., was born in Perthshire, Scotland. The funeral cortege will leave Hayward's B.C. Funeral Parlor at 2.30. Burial will be in Ross Bay Cemetery with Rev. J. M. Niven reading the committal service.

LANE—Mrs. Ellen Lane, widow of Vernon Lane, died in the Jubilee Hospital this morning. Her home was at 1116 Princess Avenue. She is survived by two sons, Ransom Lane of Victoria and Leslie V. Lane of Kimberley, B.C.; a daughter, Mrs. Stanley Young of Victoria, and three granddaughters. The remains are at Hayward's B.C. Funeral Parlor. Funeral arrangements will be announced later.

VANCOUVER—Mrs. Ruth Annie David, pioneer of Manitoba, who settled in the prairie province when Brandon was the end of steel in the west, died at her home here today. She was 83.

Born in Dudley, Worcestershire, Mrs. David came to Canada in 1881 and arrived in Winnipeg, where she remained two years before going to Brandon. From Brandon she went with her husband to the Turtle Mountain district, making the journey by oxcart. After farming there for eight years they went to Deloraine, Man., where they lived for eight years, until returning to Winnipeg in 1905. In 1911 they came to Vancouver, where Mr. David died in 1926.

C.P.R. EXECUTIVE IS OPTIMISTIC

W. M. Neal, Vice-president Western Lines in City Today

On a periodic inspection trip to the Pacific coast, W. M. Neal, vice-president of Canadian Pacific western lines, with headquarters at Winnipeg, arrived in Victoria this morning and registered at the Empress Hotel.

Optimistic regarding crop conditions on the prairies at the present time, the railway executive said some farmers in southern Manitoba expect to be cutting barley next week and growth elsewhere in wheat and other grains was very gratifying. "Whether the crop actually threshes out to the estimates of some experts, who place the figure between 450,000,000 and 500,000,000 bushels, it is certain the purchasing power of the west is feeling a welcome increase," Mr. Neal said.

Spurious Coins Found in City

Business houses and various merchants were warned by the chief of police this morning to be on the lookout for bogus coins, which are reported being distributed in the city. Yesterday Chief J. A. McLellan received spurious 50 and 10-cent pieces, which were passed at a local store, and he reported there had been other instances of them being passed. The coins are excellent counterfeits and require careful scrutiny and tapping on a hard surface to detect them.

A new pursuit plane capable of flying 400 miles an hour and firing 100 shells a minute from a 37-millimeter cannon mounted on its nose is now nearing completion.

Hostellers Find Luxury at Camp

Party Thrilled By Mattresses and Hot Water at Mt. Douglas

The old provincial forestry training camp at Mount Douglas Park is luxury to 29 boys and girls who slept there last night at the turning point of a two-month 10,000-mile tour of the North American continent which is costing them just \$210 each.

"This is wonderful," said Maryliz Bebb, 21-year-old Chicago history student who is co-leader of Rolling Youth Hostel Group No. 2, as she sat on the edge of a long trestle table under the park's tall trees this morning.

"For one thing there's hot water. Almost every other youth hostel only has cold water. We haven't seen hot showers before for weeks. And in most of them we sleep on straw ticks on wooden frames. Here we've got proper mattresses and springs—and hot water."

The camp's shower hut was in a state of mild bedlam this morning. Some of the hostellers were enjoying the hot water dear to Maryliz Bebb's heart at one end and the rest were getting their breakfast on the stove at the other end, the range in the cook tent having gone out of commission.

Breakfast was a matter of oatmeal, raisins and milk. Lunch, to be eaten somewhere on the road, was to consist of bread, butter, canned salmon, jam and more milk. "We feed them a lot of milk," said Maryliz.

Fourteen of the 29 in the party were off early on their bicycles and streamed into Victoria in time to catch the first ferry to Port Angeles.

The rest pulled out about 11 for Sidney to take the boat to Anacortes.

The two sections will meet up just outside Seattle Sunday evening and ride into the town together.

RAILROAD CAR HOME

In Seattle they will rejoin the colonist car which has been their rolling headquarters all the way across Canada and which will carry them on through California, Arizona, New Mexico, Colorado, and then home to Northfield, Mass., where the American Youth Hostel Association has its headquarters, and from where the party started.

The boys and girls in the party are of all ages from 14 to 25, and of a wide variety of types. Most come from the New England states, although there are a boy and girl from England, a boy from Switzerland and a girl from Florida.

John Grosheintz came to Canada from Switzerland a year ago and is studying to be a research chemist in Toronto.

Robin Miller is an Englishman who has been working in Pennsylvania for the last year. His sister, Daphne, came from her home in Sussex to join him on his vagabond transcontinental holiday.

Most of the others are students or teachers. They make up the second of three parties which are traveling across Canada and back through the states with three days between them. The first was at Mount Douglas at the beginning of the week and the third will arrive there Sunday.

Another smaller party passed through here recently, making the circuit in the opposite direction.

INTERESTED IN B.C. LEGISLATURE

Nebraska Editor Compares It With Only Uni-camera House in U.S.

British Columbia's legislative system is the subject of greatest interest to H. T. Dobbins, editor of the Nebraska State Journal of Lincoln, who is on holiday here. His state is the only one in the union yet to have adopted a single-house legislature.

Mr. Dobbins is accompanied by his wife and is spending a week at the Empress Hotel. Nebraskaans are divided in their opinion on the success of the unicameral system started two years ago, he said this morning. Some believe that the system, which is run on a nonparty basis, does not make for leadership and effective work. Others think 43 members not sufficient to represent the feelings of all the sections of the state. Mr. Dobbins believes, however, Nebraska will not revert to the old two-house system.

The state is the only one in the union without bonded debt, which is forbidden by a constitutional clause written by its pioneers and respected in spirit by succeeding generations. Mr. Dobbins said. Roads and public buildings have all been constructed on a strictly cash basis.

Overnight Entries Hastings Park

First race—Claiming; three-year-olds and up; seven furlongs: Margery Daw 108, Bournemouth 115, Miss Selfish 106, La Nimba 104, Bell Rap 112, Clafag 112, Arkly 107, Wexford Bay 110.

Apprentice allowance claimed.

Canada Drops First Match in Cup Tennis

HAVANA (AP)—Cuba captured the first match in the Canada-Cuba Davis Cup tennis series today when Bruce Hall, Toronto youngster, fell 6-1, 6-2, 6-2, before the polished stroking of Ricardo Morales, the island's leading player.

King-Hall Letters Declared Unofficial LONDON (CP)—The government this afternoon repeated a declaration that it had nothing to do with the Commander Stephen King-Hall news-letter printed here for distribution in Germany.

Germans had charged that Foreign Secretary Viscount Halifax was supporting the news-letter. (King-Hall, a retired naval officer, has sent appeals to "dear German readers" denouncing Hitler's foreign policy and predicting German defeat in case of war.)

Foreign Under-Secretary Richard Butler told the House of Commons: "I take this opportunity of repeating the categorical denial given in the German broadcast of the British Broadcasting Corporation of July 14 that His Majesty's government are in any way connected with or responsible for these letters."

TARZAN VAGRANT

LONDON, Ont. (CP)—Carl Anderson, a modern Tarzan who built a home in a tree, received a suspended sentence today when he appeared in court charged with vagrancy.

Anderson was arrested early today after west London residents, armed with guns, had searched the "mysterious prowler" who frightened women and children as he roamed through back yards at night.

PERSIAN TRIBE'S MIGRATION SHOWN

Teachers See Movie Of Yearly Struggle To Find Pasture

The almost incredible hardships suffered by a remote Persian tribe of 50,000 souls in its yearly trek in search of grass for its 200,000 animals were vividly painted in word and picture to teachers attending the Summer School of Education this morning. "Grass," a motion picture made by the first white people ever to witness the 48-day migration of the Bakhtyari—Persia's "forgotten people"—was shown in the auditorium of Victoria High School by Mrs. A. M. Young, educational director of the Seattle Art Museum.

The movie, which proved a commercial failure because it was filmed in the year that talkies replaced silent pictures, was taken by three United States citizens, Merian C. Cooper, Ernest Schoedsack and Mrs. Marguerite Harrison.

It showed the way in which the men, women and children of the tribe forded raging torrents without boats by allowing themselves and their beasts to be swept by the current around the wide sweep of a double bend in the channel and thrown to the far shore—if they were lucky enough to escape death by drowning; how they fought their way up trackless mountain sides, carrying calves on their backs and hauling their horses after them with ropes, and how they ploughed their way through deep snow 14,000 feet up without shoes.

Salmon Traps

(Continued from Page 1)

E. A. Wylee of Rocky Point, who said he had trolled the area since 1930, declared since then fishermen had had to give up one by one because there were no fish, some going on relief. He said that in 1931 he averaged 40 pinks a day, but in 1933 the boats did not average one a day, although the trap scow often went by loaded down with them. He said in 1933 the spring fishing was good until the traps started, then stopped.

Mr. Wylee said the fish followed the shore along the Straits, either on the Canadian or the U.S. sides.

"That is why Port Angeles is one of the finest sport fishing areas in the world," he said.

One mile of the island shore there were few fish, he claimed. "If this wasn't right there would be no traps at Sooke," he said. "The traps were built there to catch fish. Very few fish get by the traps. This proves itself because you can't catch many fish anywhere from Beechey Head to Salt Spring Island."

Mr. Wylee told Commissioner Sloan he had never seen gill-nets operating in the area.

"Would gill-net fishing be a practical operation there," asked Mr. Sloan.

"I don't see why not," said Mr. Wylee, who added he had never seen sharks in the region.

He said tides around the north end of the island and the east side were stronger than in the Straits, yet gill-nets operated there.

Questioned by Commissioner Sloan, Mr. Wylee said he thought the traps intercepted 95 per cent of the spring salmon traveling up the Straits. Sockeyes traveled farther out in the Straits, beyond the traps, because they were not feeding, but pinks and cohoes went close to shore and were caught by the traps.

Mr. Wylee said there was "very little" fog in the Straits except during the latter part of October, November and December.

Cross-examined by Roy Manzer, counsel for Sooke Harbor Fishing and Packing Company, Mr. Wylee admitted that fishing was good east of the traps until 1933, when it ceased.

"Ask the Sooke people, they may know why," he said. "I don't know except, I think, the traps were taking all the fish."

Hot Tomorrow

Summer seemed to be getting down to business at last today, and the weatherman for once reported it was not just bluff.

"Fine and warm today and tomorrow," said the Gonzales Hill weather station at 2 this afternoon. At that time the temperature was 75 degrees up at the observatory and well over 90 downtown.

A southeaster which had been expected to hit Victoria today has blown itself out without touching the south of Vancouver Island, the weather bureau said.

NOTICE

Efforts are being made to trace Henry Reginald Kendall, who is a beneficiary under the will of the late Samuel and Urcilla Kendall. Will he or anyone knowing his whereabouts write M. E. B. Kendall, 27 Marshall Avenue, Bognor Regis, Sussex, England.

Games' Entries
Close TomorrowStrong Flying "Y" Track
And Field Team Entry in
Highland Gathering

Entries for the track and field
section of the second annual High-
land gathering, sponsored by the
Victoria Highland Games Associa-
tion, to be held at Macdonald Park
on July 29, will close tomorrow.

Coach Archie McKinnon of the
Flying "Y" track and field team
reports a strong entry from his
boys for the meet and urges that
all members have their entries
turned in at the Y.M.C.A. office
immediately.

The next probable undertaking
of the Flying "Y" tracksters fol-
lowing the local games will be
the 53rd annual Caledonia Games,
sponsored by the St. Andrew's
and Caledonia Societies of Van-
couver, to be held at the Van-
couver Hastings Park oval on
August 5.

The Vancouver meet will in-
clude 35 different events, includ-
ing, in addition to track and field
contests, several bicycle races.

It is hoped that a good Victoria
representation will be at the Cale-
donia Games. The Flying "Y"
track and field team made a clean
sweep of the last meet staged
there a few weeks ago—the an-
nual Police Mutual Benevolent
Association's Police Sports—with
team-member Joe Addison, "Vic-
toria's Flying Cop," taking the
majority of the honors.

The games will be staged under
sanction of the British Columbia
Branch, Amateur Athletic Union
of Canada.

Cup Competition
At Gorge Course

The first round of the Shar-
land Cup competition will be
played Sunday at the Gorge Vale
Golf Club. Draw and start-
ing times follow:

8—George Cartwright, G. E.
Davies, R. Peden.

8:05—M. Ott, W. Edwards, Leo
Dorman.

8:10—Ken Hincks, Alan Riches,
F. Goodman.

8:15—O. A. Trickett, W. H.
Hayward, S. B. Silnger.

8:20—C. J. Robertson, C. Huilke,
H. Hewitt.

8:25—H. Price, E. Barber, J. P.
Phillips.

8:30—W. Frampton, R. A. F.
Miller, W. Marshall.

8:35—V. M. Gallon, D. R.
Hurdle, J. G. Thomson.

8:40—A. Walton, G. Walton, A.
N. Other.

8:45—E. D. Freeman, Pat Free-
man, R. Foulis.

Lawn Bowling

The following is the draw for
the Barnard Cup competition,
which will take place on Saturday
at the Victoria West greens, com-
mencing at 2 and continuing at 4:

Games at 2
W. Wallace vs. J. G. Cromack.
A. McCallum vs. W. Paterson.
W. Davidson vs. E. G. Sher-
wood.

Games at 4
D. MacMillan vs. E. F. Neal.
Major Baxandall vs. G. Val-
lance.

H. Baker vs. S. Barr.
T. Renfrew vs. T. Currie.
D. Campbell vs. A. F. Mitchell.
D. Robertson vs. Wallace or
Cromack.

A. Findlay vs. McCallum or
Paterson.

LIEUTENANT-GOVERNOR'S MATCH
First Stage

B.C., Ontario
Setting Pace

Register Two More Vic-
tories in Interprovincial
Junior Cricket

VANCOUVER (CP)—Play re-
sumes today in the interprovin-
cial junior cricket tournament
here with the eventual result in
the week-long competition nar-
rowed down to Ontario's finely
balanced eleven and the British
Columbia team.

Ontario leads the four-team
standings with seven points, one
more than British Columbia,
while Manitoba and Alberta are
out of the running with two and
one points respectively.

The eastern team plays against
Alberta today, while the coast
meets Manitoba.

Saturday the two prairie teams
meet and Ontario and British Co-
lumbia face each other in the
concluding matches.

Ontario remained at the top of
the standings yesterday by a fine
display of batting and the most
remarkable bowling ever per-
formed at the coast to win by an
innings and 125 runs over Mani-
toba.

Batting first Ontario scored 87
runs for three wickets at the
luncheon interval, then resumed
to complete a total of 200 for six
wickets declared.

Major part of the eastern total
was due to the brilliant fourth
wicket partnership of Denis Gal-
lagher and Lewis Gunn. Gal-
lagher had 136 not out and Lewis
60.

British Columbia batted first
against Alberta and at 237 de-
clared for six wickets.

Alberta went in and Even Jones
and B. Drever, the two opening
bats, had run up 47 at tea time.
After resuming, Drever was run
out for 17. Jones continued on
for 50.

After that the Alberta wickets
began to fall, and with Bob
Chamberlain taking eight for
nine runs, the visitors were all
out for 114.

YOUNG GOLFERS TO
PLAY AT MACAULAY

Victoria District Junior
Championship Tournament
On July 27 and 28

Younger golfers of Victoria will
take a crack at competition play
on the mornings of July 27 and
28, when the Victoria district
junior championship tournament
is staged at the Macaulay Point
Golf Club course.

The tournament will be open
to anyone under 18 years of age.
Entries are being received al-
ready and a record number of
young enthusiasts is expected for
the contest.

The winner will receive the
handsome Maurice Carmichael
Cup to be held for one year. W.
McCull, last year's winner, will
not be defending his title as he is
in the east to play in the Cana-
dian junior championship. Other
prizes will be presented.

A practice round will be played
on July 26.

Ontario Awarded
Junior Track Meet

Warren W. Martin, president
of the British Columbia Branch,
Amateur Athletic Union of Cana-
da, announced today that the
Ontario body has approved the
Central Ontario Branch, A.A.U.
sanction to conduct the 1939
national junior track and field
championships.

The championships will be
held in Toronto under the aus-
pices of the Beaches Olympic
Club of that city, on Saturday,
September 16.

ber of Commerce.

FIELD OF SEVEN
FOR \$50,000 RACE

Cravat and Kayak II
Remain Favorites for
Gold Cup Tomorrow

ENGLEWOOD, Calif. (AP)—
Candidates for the second run-
ning of the \$50,000 Hollywood
Gold Cup Handicap tomorrow
took things easy yesterday, con-
tending themselves for the most
part with light workouts at Holly-
wood Park.

Formal entries were to be made
today, but the field probably will
include Kayak II, Cravat, Specity,
Whicheck, Gosum, Olimpo and
Can't-Wait.

Trainer Ben Walters appar-
ently was satisfied with the work
of Cravat, and kept the Towns-
end B. Martin favorite in the barn.
Kayak II, Specity, Gosum and
Whicheck, owned by Major Aus-
tin C. Taylor of Vancouver, took
easy gallops. Can't Wait turned
in a six furlong tightener in
1:14.35.

Olimpo, the Bing Crosby-Lin
Howard Argentine, traveled five-
eighths in 59.45 and trainer Cal-
bert Johnson called it a day.

Kayak II, owned by C. S. How-
ard, remained the western favor-
ite, while Cravat held firm as the
choice of the east in the mile and
one-quarter event.

HOLLYWOOD PARK—Results of horse
racing here yesterday follow:
First race—Six furlongs:
Bill Whitting (War) 57.00 52.80 52.40
Wound Stripes (Brammer) 6.20 4.20
Rader Pass (Westrop) 4.60 3.50
Time, 1:16. Also ran: Ansel, Glad Hand,
Sizzling Pan, Nansaton, Macabre, Bachelor
Tom, Lady Laddie.

Second race—Seven furlongs:
Punka (Siler) 51.00 54.40 52.80
Torch Singer (Knapp) 15.40 7.80
Olimos (Brammer) 3.40
Time, 1:25.45. Also ran: Pori o' Pal,
Pony Four, Confront, Briarrose, Torco,
Lazie, Tickaway.

Third race—Six furlongs:
Sue Corbett 54.40 52.80 52.80
Delina Bank (Siler) 3.00 3.00
Sharpshooter (Westrop) 3.50
Time, 1:12. Also ran: Battling Kate,
Light Shot, Leightonwood, Claudian, Gold
Trophy, Atalapha.

Fourth race—Six furlongs:
Lynn Billy (Siler) 53.60 52.80 52.80
Billie Bane (Knapp) 4.60 3.50
Rolling Ball (Knapp) 4.00
Time, 1:11.25. Also ran: One Shen,
Lanastor, Urga McManawre.

Sixth race—One mile:
Vain Do (Corbett) 51.30 52.50 52.40
Wedding Cake (Knapp) 3.40 3.00
Sweet Nancy (Knapp) 4.20
Time, 1:36. Also ran: Teddy Kerry, Mad
Sevens.

Seventh race—One mile:
En Mead (Ward) 57.40 52.80 52.80
Dartford (Nease) 4.40 3.40
Count Dean (Corbett) 2.80
Time, 1:38.25. Also ran: Baby Rattler,
Lloyd Pan, Ensigns, Monawep, (Wot),
Danfield was the winner, but was dis-
qualified and placed second.

Eighth race—Mile and a sixteenth:
Undulate (McCombs) 50.00 54.00 53.00
Gambino (Knapp) 4.00 3.00
Valino (Siler) 4.00
Time, 1:45.35. Also ran: Onus Fishing
Club, Broadacre, Corley, Ready Teddy,
Puddin, Bonicon.

'Y' SWIM CLUB
ASKS ASSISTANCE

At a meeting of the Y.M.C.A.
Swimming Club executive on
Wednesday evening, 12 club mem-
bers announced their intention
of taking part in the annual in-
vitation Kelowna gala, to be
staged on August 2 and 3.

The 12 swimmers, with prob-
able additions, will make up a
local team to compete against the
best from all parts of the Pacific
northwest, providing transporta-
tion arrangements can be made.

In past years the "Y" water
artists have made the trip to
Kelowna and have brought back
many honors for the Capital
City. They have traveled by cars
donated for the purpose by local
sports backers. Part of the trip
expenses are provided by the
Kelowna association and the rest
by those who make the trip and
the association.

If the team is able to make the
necessary arrangements to get to
Kelowna, they will also take part
in the annual invitation Chelan
gala on August 5 and 6, making
the trip about a week in all.

Anyone able to help the local
swimmers is asked to contact
the Y.M.C.A. office, corner of
View and Blanshard Streets,
phone E 8811.

Dominion Stars
Virginia Bruce

Popular Actress Opposite
Walter Pidgeon in
"Stronger Than Desire"

Virginia Bruce and Walter
Pidgeon in their second ap-
pearance as a romantic team score
again in "Stronger Than Desire,"
melodramatic romance of New
York society, now playing at the
Dominion Theatre. The story is
a combination of happy married
life, legal intrigue, a blackmail
plot growing out of a flirtation,
and a murder mystery with a
photographic clue that provides
something new in the unraveling
of crime puzzles.

Pidgeon plays a prosperous
lawyer whose wife suspects him
of a flirtation and retaliates with
one of her own, to discover that
she has been playing into the
hands of a blackmailer who
threatens to compromise her. In
a struggle over her letters he
strikes her. She instinctively
picks up a revolver on his desk,
shoots him and flees, to undergo
inward torture while his wife
goes to trial for murder, and her
husband struggles to save her
from the chair.

Iika Chase plays a clever char-
acter role as Jo, the common-
sense family friend of the couple,
and little Ann-Todd plays their

Tremendous Stellar Explosion Awaited in Milky Way

Astronomers in World Meeting Attack Riddle of Mysterious Life Histories of Stars

PARIS (Special)—Life histories of the heavens' most mysterious stars, gigantic and brilliant stellar explosions that are believed to end as almost unbelievably dense but very dim stars, are being explored at the international congress of astrophysics here this week, which has brought together 14 of the world's leading astronomers.

Nova, or "new stars," and white dwarf stars are the special subjects of this congress. Those participating are in Paris as guests of the unique Singer-Polignac Foundation, sponsored and financed by the Singer fortune heir, American-born Princess Singer-Polignac, in memory of her late husband, Prince Polignac, who had been conducting research in astronomy before his death.

NOTED SCIENTISTS THERE

Prof. Henry Norris Russell of Princeton, dean of American astrophysicists, is presiding over the conference.

Others are: Dr. Gerard P. Kuiper and Dr. S. Chandrasekhar of Yerkes Observatory, Dr. Walter Baade of Mt. Wilson Observatory, the husband-wife team of Harvard Observatory, Dr. Sergei Gaposchkin and Dr. Cecilia Payne Gaposchkin; Dr. C. S. Beals of the Dominion Astrophysical Observatory at Victoria, and Amos J. Shaler of the Massachusetts Institute of Technology, who will act as secretary and interpreter.

Sir Arthur Eddington and Prof. F. J. M. Stratton of Cambridge, England, the Chanoine Georges Lemaitre, Belgian cosmologist; Dr. B. Stromgren of Copenhagen; Prof. K. Lundmark of Lund, Sweden; Prof. Bengt Edlen of Uppsala, Sweden, and Prof. N. Grottrian of Potsdam, Germany, comprise the European delegation.

CLARIFY STAR HISTORY

The conference is attempting to clarify the life history of a star. It is believed at present that an ordinary star, such as the sun, eventually reaches the point where it no longer can give forth its quota of heat and light. Its internal equilibrium becomes so disturbed that some change must occur. This change may take the form of a sudden explosion. Such violent explosions of stars and even entire galactic systems have not infrequently been observed by astronomers—the star becomes what is called a nova, or a "new" star. After the star has suffered an explosion of this sort, and it has settled down to a new equilibrium, its internal structure is radically different. It is thought that those white dwarfs—faint stars of a type characterized by densities so great that volume for volume, they are millions of times heavier than lead—are the end products of the cataclysms observed as novae.

VICTORIAN SPEAKS

Dr. C. S. Beals of Victoria summarized much of the latest explorations on the phenomenon of new stars. He told of studies of the light from their enormous blue and violet crowns.

He said there were three classes of these stars—Supergiants, P-Cygni and Wolf-Rayet.

The Supergiants were 100 times larger than the sun, with 10,000-degree surface temperatures.

The P-Cygni, 10 times the size of the sun, with surface temperatures approaching 30,000 degrees, sent off clouds of gas into space at some 200 miles a second.

Smaller than the sun, the Wolf-Rayet stars had temperatures higher than 100,000 degrees and sent off gas clouds at 2,000 miles a second.

KEY TO BEGINNING STAGES

Only the outburst of an extraordinary exploding star or supernova in our own Milky Way will reveal to science the beginning stages of these most tremendous explosions known to man, Dr.

Walter Baade of Mt. Wilson Observatory, Calif., told the meeting this morning.

Only 30 of these supernovae are known to have occurred, and only two are believed to have been in the part of space in which the earth and sun are located. One of these appeared in A.D. 1034, and its remnants are seen as the peculiar Crab Nebula. Fourteen of these 30 have been discovered from Mt. Palomar and Mt. Wilson, most of them during the intensive search for supernovae conducted by Dr. Fritz Zwicky and Dr. Baade since the spring of 1936.

Astronomers may not have a chance to observe such a supernova close at hand for many years to come. No one knows when one will occur, but the way they have flashed forth in distant galaxies causes Dr. Baade to estimate that only one supernova in several centuries will occur in a given galaxy. If a supernova happened in our Milky Way it would be brighter than any star in the planet and easily visible in daylight. At peak, a supernova may have the luminosity of 70,000,000 suns.

The interpretation of light given off by supernovae is a mystery at present, Dr. Baade told the conference. No bands in the supernova spectrum have been identified except some oxygen lines that make their appearance 180 days after maximum brightness. A curious and progressive red shift of the spectrum, discovered by Dr. R. Minkowski of Mt. Wilson Observatory, prevents attempts to assign definite wavelengths in the spectrum.

"One of the most surprising results obtained in this spectroscopic investigation of supernovae," said Dr. Baade, "is the remarkable uniformity of the development in all so far investigated. Spectra of different supernovae taken at the same phases are so closely identical even in the minor details that there is a complete lack of individuality as far as the spectra of supernovae are concerned."

50-Cent Silver Urged

COBALT, Ont. (CP)—A deputiation from this mining town will go to Ottawa soon to ask the Dominion Government to purchase Canadian silver at 50 cents an ounce, it was decided at conference last night between municipal representatives, mine operators and Walter Little, M.P. for Timiskaming, and W. G. Nixon, M.P. for the district.

An increase in unemployment would occur if silver mines were compelled to close down, Mr. Little said. He would favor some form of bonus to avert this, he added.

ONTARIO GETS BIG NEW PLANTS

NIAGARA FALLS, Ont. (CP)—A. B. Damude, Liberal M.P. for Welland, said today industrial expansion expected in this district will include a \$1,000,000 plant for the Robin Hood Milling Company, a Czechoslovakian glass factory under British management and a new post office at Ridgeway.

The Czechoslovakian project and plans for the post office are in preliminary stages, sites already having been chosen in Crowland Township and at Ridgeway, respectively.

MONTREAL (CP)—A resolution protesting "energetically" against the entry into Canada of 250 Czechoslovak technicians for the Bata shoe firm was adopted last night at a mass meeting of workers in the shoe manufacturing industry here.

The Bata Company has taken an option on a site at Frankford, Ont., near Trenton, for a factory.

RAIN NEEDED IN SOUTHERN PRAIRIES

But Railway Reports Agree General Outlook Still for Great Crops

WINNIPEG—Hot-dry weather is reported from practically all districts in the western grain growing area during the past week. In southern and central Saskatchewan rain is needed to prevent crop deterioration and some points in Manitoba also report the recent hot weather will tend to reduce grade and yield, according to the weekly crop report of the agriculture department of the Canadian National Railways.

Barley cutting has commenced in central Manitoba, and it is expected wheat cutting will start towards the end of this month. Grasshoppers are numerous, particularly in southern districts, but no extensive damage is reported so far.

Prospects in Alberta point to a bumper crop as, although hot, dry weather has also prevailed, very little damage of any kind is apparent.

In central Manitoba, recent hot weather has advanced cutting about one week, and it is expected wheat cutting will commence about August 1. More rain would be beneficial on the majority of subdivisions, but generally speaking conditions remain very favorable.

Prospects for a better than average crop are reported from northern Manitoba. Grain is not suffering as yet from lack of moisture, but a good rainfall would be beneficial.

Rain is needed over practically all of southern Saskatchewan. Conditions in some sections are serious. While grasshoppers are numerous, little damage is apparent so far. Coarse grain crops are deteriorating, but no reports of damage from rust or hail have been received.

South central Saskatchewan promises the best crop harvested for a number of years.

All grains are coming along well in southern Alberta. Wheat stands average 30 inches and the crop is heading out with large heads and heavy growth. The Peace River territory received heavy rains which ensured sufficient moisture for the remainder of the season. Crops are in good condition and indications are for a good yield.

C.P.R. REPORT

The weekly crop report of the Canadian Pacific Railway's agriculture department says warm weather of the past week, while beneficial to the grain crops of Alberta and Saskatchewan in most cases, has carried with it some deterioration in Manitoba in the southeast and south-central portions.

Southeastern Saskatchewan from Halibute to North Portal, from Tyan to Stoughton on the Kibbey subdivision of the railway, from Weyburn to Arcola and on the extreme west end of the Estevan subdivision crops have lost condition and are being described as poor. Some heat ravages are reported from the east-central sections of the same province, the damage reported as light to 35 per cent along the Reston, Buley, Broadview and Neudorf subdivisions.

Heavy rains are needed for filling and to prevent further setback in all that country.

With a still favorable outlook for good yields in all three prairie provinces, these varied conditions have reduced the heavy crop prospect to some extent. More moisture for filling and lower temperatures, especially in the southern areas, are desired.

Manitoba wheat is all in head. Eighty-five per cent of Saskatchewan's and close to 80 per cent of Alberta's, with considerable percentage of coarse grains, are following closely.

British Columbia's government estimate of fruit crops is slightly lower than last year, but the general quality is good.

Calgary Livestock

CALGARY—Receipts at noon: Cattle 10, calves 8, hogs 3, sheep 190.

Cattle market firm. Common to medium cows 2.50 to 3.00, good to choice veal calves 5.50 to 6.00, stocker yearlings 3.50 to 4.75.

No hog sales. Bacon 8.65 off trucks, select 50 cents premium, butchers 1.00 discount.

Spring lambs 6.50 to 7.00 yesterday.

Egg Prices

These prices are obtained daily from the office of the Dominion Government Poultry Products Inspection Service, Victoria, B.C.

To producer, delivered cases returned: Grade A large 25c, Grade A medium 23c, Grade A pullets 20c, Wholesale at retail: Grade A large 28c, Grade A medium 26c, Grade A pullets 24c.

DIVIDENDS

McIntyre Porcupine Mines Limited, 10 per cent; payable September 1 to shareholders of record August 1.

MONTREAL (CP)—Spot: Copper, 42c; Zinc, 40c; Tin, 32c; Lead, 45c; Silver, 40c; Antimony, 14c; Per 100 lbs. 1.0c; Montreal, live-lots, 1.0c.

Wheat

WINNIPEG (CP)—Comparative firmness at Liverpool, together with light offerings and a little short-covering, held wheat futures prices slightly above the previous close during most of today's erratic session on Winnipeg Grain Exchange. Final quotations were 1/4 to 1/2 cent higher, July at 52 1/2, October 52 1/2 to 52 3/4, and November and December 54 1/2.

Intermarket spreading involving sales at Winnipeg against purchases at Chicago was responsible for most of the light offerings while southern interests were credited with moderate buying. Export sales of Canadian wheat were confined to a few odd loads.

Liverpool advanced 1/4 to 1/2 on week-end covering and expectations of smaller world wheat shipments this week. Earlier in the day, the English market slipped nearly a penny due to yesterday's weakness on North American markets.

Chicago stayed close to previous levels, while Buenos Aires held unchanged.

Yesterday's country marketings totaled 408,000 bushels, against 132,000 last year.

Most commodities appeared to be going into strong hands throughout a routine session in the coarse grain pit. Cash wheat operations were featureless.

Burst of Buying

NEW YORK (AP)—With both foreign and domestic news exhibiting a more hopeful tone market-wise, leading stocks today pounded out recoveries of one to more than three points.

The list jogged along at comfortably higher levels until around midday. Then, following advice from Berlin officialdom, a burst of buying hit the ticker tape with such force the recording machinery fell behind floor dealings for a while. Steels, motors, rails, aircrafts and specialties were in the lead. There was an assortment of new year's highs.

Despite frequent quiet intervals, transfers for the 5 hours approximated 1,300,000 shares.

The market refused to falter when President Roosevelt at his press conference contended recent shelving of neutrality legislation would hurt business. Wall Street opinion, generally, was to the contrary.

Heavy purchasing in New York's textile markets was seen in this field often called the turn on industrial swings ahead of other barometers.

International Nickel got up more than a point in the Canadian group. Fractional gains were chalked up for Distillers and Lake Shore while others—including Dominion 4s in the bond section—moved evenly.
